HAZARDOUS

COMPOSTS, POTTING MIXES AND OTHER ORGANIC GARDENING MATERIALS

This product is made from organic materials, including composted pinebark, and contains living micro organisms including bacteria, fungi and protozoa. May also contain mineral and fertiliser additives.

RISK Inhalation of dust and/or liquid mists may irritate, inflame or sensitise the nose, throat and lungs resulting in illnesses ranging from hayfever or asthma, to pneumonia (eg Legionnaire's disease) or pneumonia-like illnesses. Direct contact with this material or its dust and/or liquid mists (bioaerosols) may cause skin irritation (dermatitis), and skin or eye infection or irritation. People particularly at risk are those suffering from asthma or allergies, and those whose immune defence systems are compromised.

SAFETY Avoid contact with eyes and skin.
Avoid breathing dust and/or mists (bioaerosols).
Wear suitable protective clothing and standard light gloves (AS2161).
If exposed to dust and/or liquid mists, also wear dust resistant eye protection (AS/NZS 1336) and particulate respirator (AS/NZS1715 or 1716).
Wash thoroughly immediately after handling.
Wash work clothes regularly.
Clean up by wet sweeping or vacuuming.
Store this product in a cool location.

FIRST AID Irrigate eyes with plenty of water for 10 minutes.
Wash skin with soap and water.
Seek medical attention for any persistent skin, eye or respiratory symptoms.

DISPOSAL Follow above safety precautions and collect in containers for disposal as trade waste in accordance with local authority guidelines.

MANUFACTURER Debco Pty Ltd, 12 McKirdys Road, Tyabb Victoria 3913 Australia

Debco is committed to using renewable resources wherever possible.
Debco PotMate Premium Potting Mix is produced with renewable resources.

How to use

1 Use Debco **PotMate** Premium Potting Mix straight from the bag. For the best results do not mix with anything. Close the bag tightly after use.

2 Do as many plants as possible at one time, gathering them all together along with clean containers and the potting mix.

3 Give each plant a thorough watering an hour or so in advance, and allow to drain.

4 Select a clean container approximately 25 mm wider than the original and partly fill with the mixture.

5 Turn the plant out of its present container. Loosen root ball gently and remove any rotten or entirely dried out roots.

6 Position the plants in the container and when happy with arrangement check levels and fill with new potting mix.

7 Shake the container gently by tapping the bottom on the ground to allow the mixture to settle. Do not firm or pack down. Normal watering will provide sufficient firming down of the potting mix.

8 Initial soaking after potting is essential and then a regular watering programme is important.

9 Protect plant from heat and strong sunlight for a few days and keep moist. Water only when the growing mixture feels dry.

Store under cool conditions

PotMate®

Premium Potting Mix

Debco **Potmate** Premium Potting Mix is manufactured to the highest standards from high quality materials to provide the home gardener with a reliable and easy to use potting mix.

This potting mix can be used for a broad range of plants including flowering annuals, vegetables, herbs, trees and shrubs.
PotMate is not suitable for some Australian native plants that are sensitive to phosphorus.

Through the correct balance of air and water, specifically selected controlled release fertiliser and other essential plant nutrients your plants will flourish in this potting mix.

Sufficient fertiliser has been blended into this potting mix to provide abundant growth for up to 6 weeks, after which apply a quality controlled release fertiliser for continued growth.
