

# BugClear GUN!™

## Fruit & Veg

MAPP XXXXX  
PCS No.: 92332

Pyrethrins are extracted from the flowers of a member of the chrysanthemum family and give a fast acting and effective spray for use all around the garden and greenhouse. Controls greenfly, blackfly, whitefly, caterpillars and red spider mite.

### INSTRUCTIONS FOR USE

FOR USE ONLY AS A HOME GARDEN INSECTICIDE/ACARICIDE.  
For use on all edible crops and ornamental garden plants.

### WHEN TO USE

Spray at first sign of pest attack and repeat as necessary. Do not spray when frost is expected or in windy conditions. Do not spray crops in open flower. Food crops may be harvested the day after treatment if required. Repeat treatments may be required to maintain control. For whitefly, repeat treatments (every 3-7 days) will be required to achieve effective control. Pesticide resistance in glasshouse whitefly, some aphids and spider mite is widespread. Where resistant pests are present, BugClear Gun! for Fruit & Veg is unlikely to give control.

### WHERE TO USE

Use on Roses, Flowers, Ornamentals, Fruit and Vegetables. Use sparingly on young plants, young foliage or sensitive plants to avoid damage. Some species of plant may be sensitive and show signs of yellowing particularly after a second application; test on a small number first. Avoid spraying in direct sunlight.

### HOW TO USE

Shake well

1. Press down firmly on top of trigger head immediately behind the yellow nozzle to depress safety tab.
2. At the same time, twist nozzle to 'SPRAY' position. Spray plants thoroughly to wet upper and lower surfaces of leaves. Turn nozzle to 'OFF' position after use.

Contains 0.2g/l pyrethrins as a ready-to-use aqueous emulsion.
