EVERGREEN®

autumn

with extracts of seaweed, stimulates healthy root growth and toughens up the grass to help it withstand harsh winter weather. It also contains iron to control autumn moss.

"When will I see the results?"

Results are quick, you will see the moss blacken as it dies (any blackening of the grass is only temporary). After 2 weeks simply rake out the dead moss. Heavy infestations may need a repeat treatment after 6 weeks.

LAWN SUCCESS MADE EASY

FOR A GREAT LOOKING LAWN ALL YEAR ROUND WE RECOMMEND:

STEP 1

Apply from September to mid November

- ✓ strengthens roots
- ✓ kills moss
- ✓ winter lawn protection

Always read the label. Use pesticides safely.

STEP 2

Apply from April to September

- ✓ feeds lawns
- ✓ kills weeds
- ✓ kills moss

EverGreen® complete contains MCPA, Mecoprop-P and Ferrous Sulphate.

Instructions for use

"How much will I need?"

This pack treats 100 square metres eg 10 metres by 10 metres.

Small Lawn: Up to 100m²

Medium Lawn: Up to 200m²

Large Lawn: Over 300m²

To determine the size of your lawn multiply the length by the width in metres. This will give you the area of your lawn in square metres.

As a guide one large stride is approximately 1 metre.

"When and where do I use it?"

Apply to lawns any time between September and mid November. Apply when the weather is fair, the soil moist and the grass dry and frost free.

Avoid drift onto flowerbeds and neighbouring plants.

Only apply to new lawns once the lawn is established (usually after 3 months).

Seaweed Extract

Seaweed is sourced from sustainable resources and is 100% natural in origin.

"How do I use it?"

BY HAND - Apply evenly at 35g per square metre (1oz per sq. yd). For a visual guide to the correct rate, first spread the recommended amount over a small measured area.

BY WHEELED SPREADER - Use the EverGreen® Easy Spreader for simple and accurate application.

If using a Scotts EvenGreen® Drop Spreader set the calibration dial to 5.

If using a Scotts EasyGreen® Rotary Spreader set the calibration dial to 27.

Owners of other spreaders, please contact the Scotts Garden Advisor on 00 44 (0) 870 5301010.

BY REFILLING THE EverGreen® Autumn DISPENSER PACK -

Apply at 35g per square metre.

Refer to the dispenser pack for full instructions.

MOWING - Avoid mowing the lawn 3 days before and at least 4 days after treatment.

WATERING-IN - If no rain falls within 2 days, water the lawn thoroughly so that the lawn food starts to work.

STAINING - Do not walk on the lawn until the product has been watered in, since ferrous sulphate can cause stubborn brown stains on clothes, paving slabs etc. Brush off immediately if accidentally spill.

"What about my children & pets?"

In the absence of rain, EverGreen® autumn product must be watered in.

Keep children and pets away from treated areas until dry.

Online product labels are current at the time of uploading. Always read the label on your purchased product before use.
