EVERGREEN®

mow it less™ lawn food

A thicker, greener lawn guaranteed... without the extra mowing!

We have invented a way to help you get a great-looking lawn,
without having to live behind your mower!

This special nutrient rich formula from EverGreen® gives
you a lush, green, healthy, lawn in just 3 days!

Feeding your lawn right down to the roots, making it
stronger and thicker whilst promoting slow, natural, growth.
This means less mowing and more time for you!

lawn products

Fed with EverGreen®
Mow it Less lawn food

*Trials prove EverGreen® Mow It Less requires up to
50% less mowing vs. other lawn care products tested.

When will I see the results?

To see visible results in 3 days, it is
recommended that you water in straight
after application. Alternatively, wait until it
rains and it will green-up 3 days later.

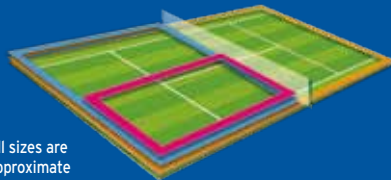

Instructions for use

How much will I need?

This pack treats 100 square metres
e.g. 10 metres by 10 metres.

To determine the size of your lawn multiply
the length by the width in metres. This will
give you the area of your lawn in square
metres. As a guide one large stride is
approximately 1 metre.

- Up to 100m² =
Quarter of a tennis court
- Up to 200m² =
Half of a tennis court
- Up to 400m² =
A whole tennis court

All sizes are
approximate

When do I use it?

Apply any time between March
and September. For optimum
greening apply monthly. Can be
used straight after mowing.

How do I use it?

30g BY HAND
Apply evenly at 30g per square
metre (1oz per sq. yd).
For a visual guide to the
correct rate, first spread the recommended
amount over a small measured area.

BY SPREADER
Use the EverGreen® Easy
Spreader for simple and
accurate application.

If using a Scotts EvenGreen® Drop Spreader
set the calibration dial to 5.
If using a Scotts EasyGreen® Rotary
Spreader set the calibration dial to 26.
Owners of other spreaders, please contact
the Scotts Garden Advisor on
00 44 (0) 870 5301010.

less mowing**
vs. other lawn products*

What about my children and pets?

Children and pets need not be
kept off the lawn. However, see
advice on staining in the
'Any other advice?' box.

Any other advice?

MOWING - EverGreen® Mow it Less can be
applied directly after mowing your lawn.
You should avoid mowing for a week after
treatment, or until after rainfall or
irrigation.

STAINING - Do not walk on the lawn until
the product has been watered in, since
ferrous sulphate can cause brown stains on
cloths, paving slabs etc. Brush off
immediately if accidentally spilled.

WATERING IN - This is not necessary
unless the weather is hot and dry and the
lawn is under stress.
