

# ANTSTOP!<sup>TM</sup>

## GRANULES

ANTSTOP! Granules contain Spinosad, an active ingredient derived from natural soil bacterium.

ANTSTOP! Granules have been designed to be easy to use and will destroy an entire ants nest with one application. These dust-free granules have been formulated with an irresistible sugar based carrier that actually attracts the ants.

ANTSTOP! Granules can be used in two ways.

Contact: Mix with water and pour directly on the ants/nest, or

Ingestion: Sprinkling dry, over nests or runs so the ants feed on the granules.

This advanced formula is not designed to kill ants instantly, so they take the ANTSTOP! back to the nest and the entire colony is destroyed, ensuring 100% efficacy.

### DIRECTIONS FOR USE:

Field of use	Application rate	Application time
<b>Outdoor use:</b>	Scatter granules over and around the nest (ca. 10g per nest) and the ant runs (up to 10g per running metre). <b>Or:</b> Drench application: 10g/0.5L water, per nest. Measure 10g product using the measuring cap provided. Add to 0.5L of water in a watering can. Stir the mixture thoroughly. Apply over nest and ant runs. After application, rinse the watering can with water and empty the rinsings on the treated area. Do not pour down drains.	<b>At appearance</b>  If ants are still visible after 10 days, make a second application.
<b>Indoor use:</b>	Scatter along the ant runs, along cracks, crevices and hard surfaces (up to 10g per running metre). Do not use on carpets or soft furnishings.	

### Granular formulation containing 2g/kg Spinosad

### STATUTORY CONDITIONS RELATING TO USE

#### FOR USE ONLY AS AN INSECTICIDE FOR AMATEUR USE

Application rate: 10g product per nest.

For application by hand as a scatter treatment: Apply over and around the nest at a rate of 10 grams product per nest, and along outdoor and indoor ant runs at a rate of 10 grams product per metre of run.

For application by watering can as a drench treatment: Dilute 10 grams product with 0.5 litres of water, then apply to nests at a rate of 0.5 litres of solution per nest.

**DO NOT USE** where food, feed or water could become contaminated.

**PREVENT ACCESS TO BAITS** by children and animals.

**REMOVE OR COVER ALL FISH TANKS AND BOWLS** before application.

Do not empty into drains.

**DO NOT USE NEAR DRAINS.**

**PREVENT ANY SURFACE RUN-OFF FROM ENTERING DRAINS.**

Do not contaminate waterbodies or watercourses with chemicals or used container.

**HAZARDOUS TO BEES.**

**REMOVE ALL REMAINS OF BAIT** and bait containers.

This material and its container must be disposed of in a safe way.

**READ ALL PRECAUTIONS BEFORE USE.**

HSE No. 8839

To avoid risks to man and the environment, comply with the instructions for use.

This product is approved under The Control of Pesticides Regulations 986, for use as directed.

### PRECAUTIONS:

**KEEP OUT OF REACH OF CHILDREN.**

**KEEP IN A SAFE PLACE.**

**KEEP AWAY FROM FOOD, DRINK AND ANIMAL FEEDING STUFFS.**

**WASH HANDS AND EXPOSED SKIN** before meals and after use.

**HARMFUL TO AQUATIC ORGANISMS, MAY CAUSE LONG TERM ADVERSE EFFECTS IN THE AQUATIC ENVIRONMENT.**
