

The following Levington John Innes composts are available:

Levington John Innes No. 1. for seedlings, young plants, cuttings and plug plants.

Levington John Innes No. 2. for general repotting.

Levington John Innes No. 3. for final repotting of mature plants.

Levington John Innes Seed, for seed sowing and rooting cuttings.

Levington John Innes Ericaceous, for lime hating plants such as Azalias, Heathers and Rhododendrons.

John Innes composts were developed in the 1930s. They are based on a traditional mixture of loam, peat and washed and graded horticultural grit.

Levington John Innes Ericaceous compost has a specially balanced nutrient mix ideally matched to the needs of acid loving plants such as Camelias, Azalias and Rhododendrons being repotted into medium sized containers.

Storage:

Keep **Levington John Innes Ericaceous** compost away from pesticides, particularly lawn weed killers or fertiliser containing lawn weed killers. Use the compost within a year. Keep the compost bag closed when not being used to stop it drying out. Storing from one year to another may result in the fertiliser ratios becoming unbalanced.

Size Guide This pack fills approximately:

XS	8L		or	1x		1 SMALL 25CM (10") POT, 1 HANGING BASKET
M	25L		or	1x		3 SMALL 25CM (10") POTS, 1 MEDIUM 32CM (13") POT, 3 HANGING BASKETS

Levington John Innes Ericaceous

How to Use:

Potting-on Plants:

Re-potting is best done in the spring, when plants are actively growing. Before re-potting, water plants well and allow to drain.

Put fresh compost in the bottom of a new pot.

Turn the old plant upside down and tap pot sharply to release.

Place the plant in the middle of the new pot and add more compost, firming lightly around the rootball. Leave a space of at least 1cm below the pot rim to allow adequate space for watering.

Water the plant well.

Growing On:

This **Levington John Innes Ericaceous** compost provides all of the necessary food for up to 6 weeks. After that time, water with **Miracle-Gro Ericaceous Plant Food**.

The Levington Range:

Levington has researched Growing Media for over 40 years and through our wealth of knowledge, Levington has put forward a full and complete range of unique and special composts, soil conditioners and barks for you:

PREMIUM BLEND:

Multi Purpose Compost
Container & Hanging Basket Compost
