**How to use**

**Beds & borders**

Dig a hole twice the size of the root ball.

Place plant in hole and fill with compost.

Firm around the base and water thoroughly.

**Pots & containers - seeds**

Fill the container with compost.

Sow seeds following pack instructions.

Water in gently.

**Pots & containers - plants and bushes**

Fill compost to just below the rim of the container.

Place plant in pot and fill the rest of the container with compost.

Firm lightly and water thoroughly.

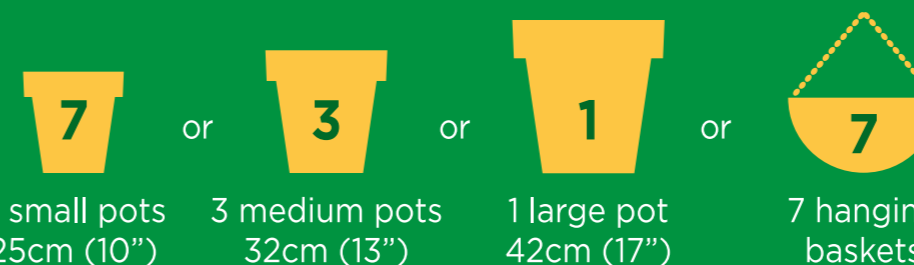

**USEFUL TIPS**

We recommend feeding your crops with Miracle-Gro Gro Your Own Plant Food after 6 weeks.

We recommend replacing compost in pots and containers annually to ensure that you get the best growing performance.

**This pack fills approximately**

**Storage**

- Keep the bag closed when in storage to prevent drying out.
- Storage from one year to another may affect performance.
- Keep away from pesticides.
- Occasionally a white mould appears on the compost. This is not harmful to your plants and should disappear naturally.

**Environmental policy**

Scotts Miracle-Gro is proud of its environmental record and committed to further progress. With this in mind, we continue to develop consistently outstanding compost, whilst reducing peat wherever possible.

Our range includes reduced peat, and peat free options. We replace peat with naturally occurring, sustainable alternatives such as wood fibre, composted bark and coir.

**How much peat in this product?**
