ALWAYS USE GLOVES

We recommend you always wear gloves when gardening.

1Le

net weight: **1100g**

How to use

For cabbages and potatoes. Apply 4.5 l/sqm every week. For tomatoes apply 4.5 l for 3 plants, every week.

For carrots, peppers apply 4.5l/sqm every 2 weeks.

For radishes, lettuces and straw berries apply 2-3 times/season 4.5l/sqm.

• **Prepare fertiliser solution: Apply one cap full into 4,5 L of water.**
(One capful is approximately 50 ml.)

• **Soak the soil around the plants to feed the roots.**

When to use

- For vegetables start feeding 2 weeks after germination or planting.
- For strawberries, start feeding early spring and after fruit has been picked.
- For tomatoes start feeding when the first small green tomatoes appear.

Keep out of reach of children. Wash splashes from skin.
Store out of direct sunlight, in a cool place. Store between 5 and 35°C.
Only feed when plants are actively growing.
