PLANT FOOD

Miracle-Gro compost contains a unique and revolutionary Fibresmart Technology.

The hollow wood fibres are 100% natural and peat free. They ensure the optimum balance of air and water for strong roots to grow healthy, beautiful plants.

### Environmental policy

Scotts Miracle-Gro is proud of its environmental record and committed to further progress. With this in mind, we continue to develop consistently outstanding compost, whilst reducing peat wherever possible.

Our range includes reduced peat, and peat free options. We replace peat with naturally occurring, sustainable alternatives such as wood fibre, composted bark and coir. Occasionally a white mould appears on the compost. This is not harmful to your plants and should disappear naturally.
