How to use?

To make your own compost heap

Make your compost heap at least 1 square metre in size in a shaded area of the garden.

Mix grass cuttings, raw vegetable peelings, garden weeds and plant trimmings together with cardboard or newspaper in layers. Cut or chip bigger branches into smaller pieces.

Sprinkle two handfuls (50g) of Miracle-Gro Organic Choice Compost Maker whenever you have added a fresh layer that is approximately 10cm deep.

Each layer will gradually compress to make space for the next layer. Do not make the heap much higher than 1 metre.

Protect the heap from rain and cold winds with a waterproof covering.

Mix the compost every 2 months to introduce air and if necessary water the material.

After 3-4 months in summer or 5-6 months in winter your compost is ready for use in the garden.

If you have an enclosed compost bin

Mix grass cuttings, raw vegetable peelings, garden weeds and plant trimmings together with cardboard or newspaper in layers. Cut or chip bigger branches into smaller pieces.

Sprinkle two handfuls (50g) of Miracle-Gro Organic Choice Compost Maker whenever you have added a fresh layer that is approximately 10cm deep.

Mix the compost every 2 months to introduce air into the material.

New layers can be added during the whole year.

After 3-4 months (or 5-6 months in autumn or winter) the lower layers are ready for use in your garden.

Reseal pack, store in a cool dry place. Wash hands after use and store out of reach of children.

IMPORTANT: For home and garden use only.
