### How much to use?

As a guide one closed handful is approximately 25g.

When planting, mix 25-75g per plant and mix through the potting compost or soil. Re-apply once during the season.

For existing plants in spring 75g for every metre of tree/bush. Sprinkle over the soil around the plant and work in.

For vegetable garden and beds and borders apply 75-100g per square metre at the beginning of the season.
