Feeds up to **160** shrubs

### How to use

#### Established roses & shrubs

Evenly scatter 1-2 handfuls of granules around the base of each bush, over the whole rooting area.

Lightly work into the soil.

#### Planting new roses & shrubs

Dig a hole double the size of the root ball & cut back any damaged roots.

Insert a supporting stake before planting.

Evenly scatter 1 handfuls over the planting area & lightly work into soil.

Position the roots, cover with soil/compost, firm in and water thoroughly.

#### Planting in containers

Evenly scatter one handful over the planting area & lightly work into the compost.

Remove the container & plant into a hole deep enough to take the soil ball.

Fill in with compost around the roots, firm lightly and water thoroughly.

- *For best results feed twice a season, at first flower bud stage and at the second flush of buds.*
- *Avoid over watering or allowing plants to dry out as this can cause damage to the roots.*
- *One handful of granules is approximately 25g.*
