Contains 1.2%w/w diflufenican, 20%w/w glyphosate and 20%w/w oxadiazon as a water dispersible granule.

INSTRUCTIONS FOR USE

FOR USE ONLY AS A HOME GARDEN WEEDKILLER/HERBICIDE.

For use on natural surfaces not intended to bear vegetation and permeable surfaces overlying soil.

WHEN TO USE:

Pathclear Weedkiller PC should be applied from April onwards, when the weeds are small and are actively growing. Apply on a dry day and do not apply in windy conditions. Do not apply if rain is expected within 6 hours of application. Avoid treating in waterlogged conditions.

WHERE TO USE:

Pathclear Weedkiller PC can be used to control weeds on gravel paths and drives, along fences, walls and Waste Ground**. **Pathclear Weedkiller PC** can be used right up to the edge of cultivated areas and lawns. Avoid treating steeply banked areas where the weedkiller could be washed off onto flowerbeds or lawns or into drains.

GRAVEL PATHS

GRAVEL DRIVES

WASTE GROUND
AROUND SHEDS

** Do not use **Pathclear Weedkiller PC** on impermeable surfaces such as concrete, tarmac, decking and paved areas, or on any other surface, which is underlaid with concrete, cement or any other impermeable material.

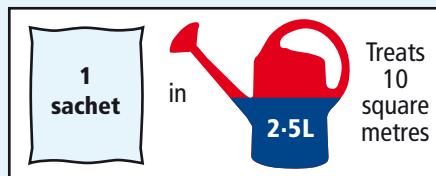

CAUTION:

Pathclear Weedkiller PC kills all green plant growth and prevents seed germination

- DO NOT apply to cultivated areas and lawns unless you want to kill them
- A period of at least 6 months should elapse between treatment and replanting
- In addition the soil should be thoroughly dug to avoid risk of damage to subsequent planting
- DO NOT use near desirable trees, roses, shrubs or their rooting areas.

HOW TO USE:

1. Use a watering can fitted with a Weedkiller Sprinkle Bar or fine rose.
2. Cut open one CORNER of the sachet and pour contents into 2.5 litres of water. Stir until granules are completely dissolved and use immediately.
3. Apply evenly onto the area to be treated. Ensure weeds are thoroughly wetted. Do not drench weeds. Maximum individual dose: 12g product /10 square metres. Two applications per season.
4. To achieve maximum persistence of weed control, do not disturb or cultivate treated soil.
5. Wash equipment thoroughly with water after use and dispose of washings or any unwanted dilute product on soil in a waste area away from drains and gutters which is not going to be used to grow desirable plants within two years. A white deposit may remain on some treated areas. This is temporary and will fade with time.

Pathclear® Weedkiller^{PC}

***Weed free gravel paths,
drives & waste ground**

Before Treatment After Treatment

**Prevents re-invasion by
seedlings for up to 3 months**

Pathclear Weedkiller PC kills a wide range of annual and perennial garden weeds.

Pathclear Weedkiller PC is systemic, killing leaves and roots of even existing deep rooted weeds.

Pathclear Weedkiller PC is long lasting, preventing weed germination for up to 3 months. Under ideal conditions some weeds may be controlled for up to 6 months.
