

Verdone® Extra Ready to Use kills many weeds in lawns with **one treatment**, including problem weeds such as white clover, black medick, lesser trefoil, daisy, dandelion, plantains and common mouse-ear.

FOR USE ONLY AS A HOME GARDEN WEEDKILLER.

Maximum individual dose: 500ml product per 10sq m.

Maximum number of treatments: One per year.

Instructions for use:

WHEN AND WHERE TO USE

FOR USE ON LAWNS.

Use on weeds which are leafy and actively growing - usually from April to September. For best results do not mow for 3 days before or after treatment.

Avoid spraying in drought or frost. New lawns: treat in the spring at least 2 months after sowing or laying turf. The new lawn must be growing well.

HOW TO USE

SHAKE WELL BEFORE USE AND USE IMMEDIATELY.

1. Press down firmly on top of trigger head immediately behind yellow nozzle to depress safety tab.

2. At the same time, twist nozzle to spray position (1/4 turn either way).

3. Hold sprayer at arms length with nozzle pointing towards the weeds and apply a light spray to cover all weed leaves. Avoid drenching.

4. After use turn nozzle to 'STOP'.

All grass clippings may be left in place on the lawn. The first mowing after application must not be used as a mulch, either fresh or after composting, since it may damage desired plants. Dispose of via normal household waste. Do not dispose of via council composting schemes. The next three mowings should be used as a mulch only after composting well, for at least 9 months.

CAUTION: Avoid spray coming into contact with cultivated plants.

You can treat new lawns: treat in the spring at least 2 months after sowing or laying turf. The new lawn must be growing well.

SAFETY INSTRUCTIONS

TO AVOID RISKS TO MAN AND THE ENVIRONMENT, COMPLY WITH THE INSTRUCTIONS FOR USE.

KEEP CHILDREN AND PETS AWAY FROM TREATED AREAS UNTIL SPRAY HAS DRIED.

Protection during/in use

KEEP OFF SKIN. DO NOT BREATHE SPRAY. WASH HANDS AND EXPOSED SKIN AFTER USE. WASH OFF SPLASHES IMMEDIATELY.
