Max number of treatments: 3 per crop.

SAFETY INSTRUCTIONS

Protection during/in use

KEEP OFF SKIN.

KEEP AWAY FROM EYES.

WASH OFF SPLASHES (IMMEDIATELY).

DO NOT BREATHE SPRAY.

WASH HANDS AND EXPOSED SKIN AFTER USE.

Environmental protection

Do not contaminate water with the product or its container.

Do not empty into drains.

Direct application away from ponds and other surface water bodies.

Storage and disposal

KEEP PRODUCT IN ORIGINAL CONTAINER, tightly closed, in a safe place.

KEEP PRODUCT AWAY FROM CHILDREN AND PETS.

KEEP AWAY FROM FOOD, DRINK AND ANIMAL FEEDING STUFFS.

PROTECT FROM FROST.

WHEN TO USE

Spray at first sign of insects or symptoms, until plants are clear of pests. For optimal control and persistence of effect, repeat applications are required at 7-10 day intervals. It is also essential to ensure comprehensive coverage of the plant surface, particularly the undersides of leaves. On Fruit trees, depending on tree size, complete coverage may not be practical or appropriate, and the product is unlikely to give complete control of widespread populations.

The best time to spray is early morning or early evening, avoiding bright sunshine.

Bug Clear™ Fruit & Veg kills a wide range of common insects including aphids, whitefly, scale insects, mealybugs, red spider mites and other mites.

DO NOT USE Bug Clear Fruit & Veg during periods of high temperature (above 25°C) or when temperatures might become high or during periods of high light intensity. Blooms and young leaves may react sensitively.

WHERE TO USE

Bug Clear™ Fruit & Veg is ideal for ornamental plants, fruit and vegetables.

Some plants may be sensitive to oils. It is always advisable to test a sample of plants, by treating them and leaving for at least two weeks, before treating a large or valuable collection.

Do not treat sensitive species of floral plants with delicate foliage (e.g. poinsettias, cyclamens, kalanchoes, African violets, ferns, or ivy etc.)

Do not spray on directly onto blooms.

HOW TO USE

1. SHAKE BOTTLE WELL BEFORE USE.

2. Using measuring cap provided add 20 ml / 1 L of water

3. Mix and use with a pressurised sprayer immediately.

4. Spray evenly, to wet upper and lower surfaces of leaves.

Any run-off onto desirable surfaces should be washed away as staining can occur if the solution is allowed to dry.

Clean the spray equipment thoroughly immediately after use.

BUG CLEAR™ FRUIT & VEG

Bug Clear™ Fruit & Veg kills a wide range of common insects including aphids (greenfly and blackfly), whitefly, scale insects, mealybugs, red spider mites and other mites.

Makes 12.5 L
Dilute and spray
