

EVERGREEN[®] Mosskill

Lawn Food & Moss Control

MAPP No: 18593

For a richer, greener lawn that kills moss in just 7 days

SAFETY INSTRUCTIONS

TO AVOID RISKS TO HUMAN HEALTH AND THE ENVIRONMENT, COMPLY WITH THE INSTRUCTIONS FOR USE

Protection during / in use

- Read label before use.
- Wash hands thoroughly after handling.
- If medical advice is needed, have product container or label at hand.
- Do not breathe dust.
- Do not eat, drink or smoke when using the product.
- Avoid contact with eyes.
- IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists get medical advice/attention.
- Wear protective gloves.

Environmental protection

- Do not contaminate water with the product or its container.
- Do not empty into drains.

Storage and disposal

- KEEP OUT OF REACH OF CHILDREN.
- Keep away from food, drink and animal feeding stuffs.
- KEEP PRODUCT IN ORIGINAL CONTAINER, tightly closed, in a safe place.
- Dispose of contents/container in the dustbin except for empty containers which can be disposed of by recycling.

Warning
Causes serious eye irritation.

UK Fertiliser Declaration

EC FERTILISER
NK Fertiliser 14-5:

Nitrogen (N) total	14.0%
Ammoniacal Nitrogen (N)	10.9%
Ureic Nitrogen (N)	3.1%
Potassium oxide (K ₂ O) soluble in water	5.0%

EverGreen[®] Mosskill contains 16.3% w/w iron sulphate (anhydrous) as a granular formulation (GR).

INSTRUCTIONS FOR USE

FOR USE ONLY AS A HOME GARDEN LAWN TREATMENT. Read all safety instructions before use.

When and where do I use it?

For use on lawns anytime between April and September.

Apply when the weather is fair, the soil moist, the grass dry and frost free.

Maximum of 2 applications per year with a 3 month interval between treatments.

When will I see results?

Results are quick, after 7 days your lawn will become a richer green colour.

You will see the moss blacken as it dies (any blackening of the grass is only temporary).

Scarify (rake) vigorously after 2 weeks to remove dead moss, the grass will then re-establish.

How do I use it?

MAX 35g 1m² BY HAND

Apply at a maximum individual dose of 35g per square metre.

For a visual guide to the correct application rate, first spread the recommended amount over a small measured area.

Areas for treatment must be marked out to ensure even application.

BY SPREADER - Settings

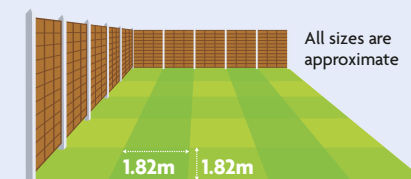

EverGreen [®] Wizz [™] Year-Round Spreader	5
EverGreen [®] Easy Spreader+	5
EverGreen [®] Drop Spreader	2
EasyGreen [®] Rotary Spreader	28

How much will I need?

This pack treats 80m² (10m x 8m).

To determine the size of your lawn multiply the length by the width in metres.

Alternatively a lawn with 5 by 5 standard fence panels (1.82m width), will cover approx 80m².

All sizes are approximate

What about children and pets?

Keep children and pets away from treated areas until granules have been watered in

* A repeated application will help create a thicker, healthier lawn.

PRECAUTIONS

Do not use on new lawns. EverGreen[®] Mosskill should not be applied to lawns less than 6 months old. Avoid drift onto nearby plants and borders. Do not apply during prolonged dry periods (drought), frosty weather or when heavy rain is imminent

Re-seeding of bare patches should not be carried out until 8 weeks after treatment.

TREES AND BULBS: EverGreen[®] Mosskill can be used around trees in the lawn, but avoid contact with the foliage. EverGreen[®] Mosskill can be applied where bulbs are growing in the lawn, provided it is applied after all the bulb foliage has died down naturally.

MOWING: Avoid mowing the lawn for 2-3 days before and after treatment.

WATERING-IN: Water in after application, keep off treated areas until dry.

DISPOSAL OF LAWN CLIPPINGS: Do not use the first 4 mowings after treatment for mulching. They will be safe to use after being thoroughly composted for 6 months.

STAINING: Do not walk on treated areas until it has rained or EverGreen[®] Mosskill has been watered in and dried, since iron sulphate can cause stubborn brown stains on clothes, paving slabs, etc. Clean up any spillages immediately and dispose of safely.
