

BATCH CODES

Batch codes refer to when a product was produced. Depending on the type of product the position of the batch code will vary, this document will help you find the code. A batch code is not a barcode, which is pre-printed onto the packaging and scanned by retail staff.

Compost Bags:

These will vary depending on the size of the bag. In this case for a 40L bag it is found on the side of the bag, with other sizes it can be found at the top of the bag.

Large Bags:

These are usually found on the back of the bag in the top left hand corner

Cardboard boxes:

These are generally found on the bottom of the pack or on the side, e.g. the printed batch code is above the product name.

Plastic Pouches:

These are found on the bottom of the pouch

Tubs

These are found on the back of the tub at the top

Bottles:

These are found on the neck of the bottle either on the front or back
