

HOW TO USE

Use the Scotts® Broadcast spreader to easily and evenly distribute lawn food and seeds. Read and follow all directions for use on the pack of the product that you are applying to your lawn.

Further instructions inside this box.

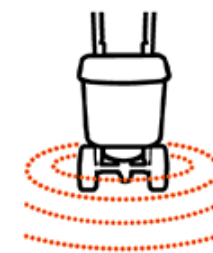

- 1 Check spreader is fully operational, then select the correct setting.

- 2 Fill the spreader with Scotts Lawn Builder™ lawn food or Scotts Lawn seed.

- 3 Start to walk and pull the handle upwards to begin spreading.

- 4 The spreader will apply product in an even 3 metre rotation.

HOW TO APPLY

1 CALCULATE

Determine the size of your lawn in square metres by multiplying the width by the length. One large stride is approximately 1 metre. e.g.

$$11\text{m (w)} \times 23.8\text{m (l)} = 260\text{m}^2$$

2 APPLY

Apply product at correct spreader setting as shown on packaging.

Once applied, empty any unused product back into packaging.

3 WATER

Water product well into lawn. Place spreader on lawn and gently hose down to thoroughly rinse it out.
