Humic Acid
Boosts soil health
for stronger roots

Boost Lawn Resilience
Potassium for a stronger,
more resilient lawn

Feeds for Healthy Growth
Nutrients for growth & greening
(N, P, K, Fe, Mn, Mg) to help revive lawns

HOW TO USE

SHAKE WELL BEFORE USE

1. Switch applicator to OFF at the start.
2. Connect hose to applicator and turn on tap.
3. Switch to WATER position to start watering, then move to ON position to start applying product.
4. Apply in a even sweeping motion walking backwards. Sprayer is preset to a spray pattern for even coverage.
5. To stop application, move switch to OFF position, then turn tap off and release hose.

Tip: Best applied in the morning. Wait 4 hours after application before further watering. Avoid application in temperatures above 30°C or when rain is expected. Use every 2-4 weeks for best results.

NEED A FEED THAT'S SLOW & STEADY?

LAWN FOOD

Grab a bag of Scott's® Lawn Builder Lawn Food for 3 months slow-release of nutrients. The perfect partner to our fast-acting liquid range!

GUARANTEED ANALYSIS
