Boost Lawn Resilience
Potassium for strength and recovery

Seaweed & Humic Acid
For improved soil health and root growth

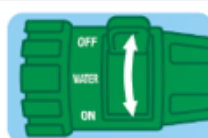

Feeds for Healthy Growth
Provides essential macro and micro nutrients

HOW TO USE

SHAKE WELL BEFORE USE

1. Switch applicator to OFF at the start.
2. Connect hose to applicator and turn on tap.
3. Switch to WATER position to start watering, then move to ON position to start applying product.
4. Apply in an even sweeping motion walking backwards. Sprayer is preset to a spray pattern for even coverage.
5. To stop application, move switch to OFF position, then turn tap off and release hose.

Tips: Best applied in the morning. Wait 4 hours after application before further watering. Avoid application in temperatures above 30°C or when rain is expected. Use every 2-4 weeks for best results.

LAWN FOOD

NEED A FEED THAT'S SLOW & STEADY?

Grab a bag of Scott's® Lawn Builder Lawn Food for 3 months slow-release of nutrients. The perfect partner to our fast-acting liquid range!
