

Scotts®

Osmocote® Citrus & Fruit

Specially formulated for Citrus and Fruit trees, delivering essential nutrients for healthier, more productive plants. This Premium Potting Mix contains added potassium to support bigger, tastier harvests and extra magnesium to help produce juicier fruit.

With a wetting agent to improve water penetration and Scotts® Osmocote Controlled Release Fertiliser that feeds for up to 9 months, this mix provides the ideal moisture and nutrient balance for citrus, stone fruit, olive trees and other fruit bearing varieties.

WHAT'S IN THE BAG?

Controlled Release Fertiliser

Distributes nutrients as plants need it, up to 9 months

Wetting Agent

Ensures nutrients get to the root zone

Added Nutrients

Boosted levels of Magnesium and Potassium for juicier, tastier fruit

Growth Stimulants

Encourage strong root development for healthier, more vigorous plants

BEFORE USE: Roll and flip bag over at least 6 times to loosen any compacted material.

HOW TO USE

Scotts® Osmocote® Citrus & Fruit Potting Mix is a complete, premium mix that requires nothing more for up to 9 months – just add water.

- 1 Select a clean pot at least 25mm wider than the original and partly fill it with potting mix.
- 2 Gently remove the plant from its container, loosen the root ball, and trim away any rotten or completely dried out roots.
- 3 Position the plant in the middle of the pot and fill around it with potting mix, just up to the base of the stem. Do not pack down.
- 4 Water evenly to wet all the mix and help it settle, then protect the plant from wind, heat, and strong sunlight for a week to allow it to adjust to its new home.

ONGOING PLANT CARE

- **Plants should be watered** immediately after potting and then frequently enough to meet the requirements of the plant variety.
- **To check if your plant needs water**, gently push your finger 2-3 cm into the mix and if it feels dry, it's time to water. If it feels slightly moist, test again in the following days.
- **Plants should be re-potted** with fresh Scotts Osmocote Citrus & Fruit Potting Mix when they outgrow the pot or after 2-3 years.

SAFETY TIPS

We recommend you always wear gloves when gardening. Wear a particulate mask if dusty. Keep the product moist while handling. Wash hands immediately after use.

This mix complies with the requirements of AS3743 for a premium grade potting mix

HAZARDOUS

COMPOSTS, POTTING MIXES AND OTHER ORGANIC GARDENING MATERIALS
This product is made from organic materials, including composted pinebark, and contains living micro-organisms, including bacteria, fungi and protozoa. Also contains mineral and fertiliser additives.

RISK

Inhalation of dust and/or liquid mists may irritate, inflame or sensitise the nose, throat and lungs resulting in illnesses ranging from hayfever or asthma, to pneumonia (e.g. Legionnaire's disease) or pneumonia-like illnesses. Direct contact with this material or its dust and/or liquid mists (bioaerosols) may cause skin irritation (dermatitis), and skin or eye infection or irritation. People particularly at risk are those suffering from asthma or allergies, and those whose immune defence systems are compromised.

SAFETY

Avoid contact with eyes and skin. Avoid breathing dust and/or liquid mists (bioaerosols). Wear suitable protective clothing and standard duty gloves (AS/NZS 2161.2). If exposed to dust and/or liquid mists, also wear dust resistant eye protection (AS/NZS 1336) and particulate respirator (AS/NZS 1715 and AS/NZS 1716). Wash thoroughly immediately after handling. Wash work clothes regularly. Clean up by wet sweeping or vacuuming. Store this product in a cool location.

FIRST AID

Irrigate eyes with plenty of water for 10 minutes. Wash skin with soap and water. Seek medical attention for any persistent skin, eye or respiratory symptoms.

DISPOSAL

Follow above safety precautions and collect in containers for disposal as trade waste in accordance with local authority guidelines.

For further information, refer to the SAFETY DATA SHEET.
