

**+Wetting Agent**  
SLOW RELEASE LAWN FERTILISER

Lawn Builder with Wetting Agent helps water and nutrients to penetrate well into the soil and reduce water run-off. This promotes deeper root growth so that less watering is needed and promotes drought tolerant lawns.

### WHEN DO I FEED MY LAWN?

Apply anytime of year. For best results feed three times per year.

ONE ANNUAL FEEDING IN EARLY SPRING    SECOND ANNUAL FEEDING IN EARLY SUMMER    THIRD ANNUAL FEEDING IN AUTUMN

### HOW MUCH WILL I NEED?

Lawn Builder is unlike traditional fertilisers as you use **less to feed more**.

To determine the size of your lawn in m<sup>2</sup>, multiply the length by the width in metres.

This pack treats **250m<sup>2</sup>**  
That is almost 1 tennis court!

### HOW DO I APPLY IT?

#### DRY METHOD

During water restriction periods, apply to lawn without watering in. Scotts Lawn Builder is safe on lawn until next rain or watering, when evenly and correctly applied with a spreader. Guaranteed to green the lawn within one week of obtaining moisture.

#### FAST METHOD

Greener in 2 days with watering. For fast results apply to moist foliage, wait 24 hours then water in thoroughly.

For best results use a Scotts Spreader, however if applying by hand ensure even distribution.

### APPLYING BY SCOTTS SPREADERS

EvenGreen Drop Spreader  
- SETTING 5%

EasyGreen Rotary Spreader  
- SETTING 27

HandyGreen Hand Held Spreader  
- SETTING 5

- Sweep excess granules off paths, driveways, shoes, etc. to avoid iron stains. See important note below.
- Do not use on a new lawn less than 8 weeks old. Use Lawn Builder Seed & Turf Starter Fertiliser instead.
- Use half of the suggested rate for summer application on cool season grasses, e.g. Bent Grass.
- Fertiliser application should be avoided if temperature is expected to exceed 30°C.
- Scotts Lawn Builder is not recommended for use on other plants.

#### IMPORTANT

This product when wet, will cause iron stains. Be sure to sweep all granules off paths, coping, paving, driveways, shoes, etc. immediately after use. Do not allow the granules to come into contact with these surfaces when wet.
