

Buffalo

SLOW RELEASE LAWN FERTILISER

Buffalo (including soft-leaf varieties) is an overall hardy grass type but it may take longer to repair itself than other grasses and can lose its colour, health and vitality especially over the colder months. Lawn Builder Buffalo is specially formulated to bring out the best in your Buffalo lawn.

WHEN DO I FEED MY LAWN?

Apply anytime of year. For best results feed three times per year.

ONE ANNUAL FEEDING IN EARLY SPRING

SECOND ANNUAL FEEDING IN EARLY SUMMER

THIRD ANNUAL FEEDING IN AUTUMN

HOW MUCH WILL I NEED?

Lawn Builder is unlike traditional fertilisers as you use less to feed more.

To determine the size of your lawn in m², multiply the length by the width in metres.

This pack treats **250m²**
That is almost 1 tennis court!

HOW DO I APPLY IT?

DRY METHOD

During water restriction periods, apply to lawn without watering in. Scotts Lawn Builder is safe on lawn until next rain or watering, when evenly and correctly applied with a spreader. Guaranteed to green the lawn within one week of obtaining moisture.

FAST METHOD

Greener in 2 days with watering. For fast results apply to moist foliage, wait 24 hours then water in thoroughly.

For best results use a Scotts Spreader, however if applying by hand ensure even distribution.

APPLYING BY SCOTTS SPREADERS

EvenGreen Drop Spreader - SETTING 6

EasyGreen Rotary Spreader - SETTING 2 1/2

HandyGreen Hand Held Spreader - SETTING 3

- Sweep excess granules off paths, driveways, shoes, etc. to avoid iron stains. See important note below.
- Do not use on a new lawn less than 8 weeks old. Use Lawn Builder Seed & Turf Starter Fertiliser instead.
- Use half of the suggested rate for summer application on cool season grasses, e.g. Bent Grass.
- Fertiliser application should be avoided if temperature is expected to exceed 30°C.
- Scotts Lawn Builder is not recommended for use on other plants.

IMPORTANT

This product when wet, will cause iron stains. Be sure to sweep all granules off paths, coping, paving, driveways, shoes, etc. immediately after use. Do not allow the granules to come into contact with these surfaces when wet.

The Scotts Difference

Unlike traditional fertilisers, every particle of Scotts Lawn Builder™ contains Scotts patented time-release Nitrogen and Potassium, formulated to release nutrients just as your lawn needs them.

✓ Your lawn will be greener and stay greener for up to 3 months.

✓ Controlled feeding eliminates waste, prevents burning and surge growth.

*okay to re-enter lawn after application
*when used according to directions
