

*Everydrop Water Storing Crystals are long lasting and able to absorb 100 times their own weight in water.

When mixed into potting mix and garden soil, these crystals enhance the water holding capacity of your growing media and prevent the soil from drying out.

Everydrop Water Storing Crystals are **non toxic**. They can be used to prolong periods between watering and prevent against drought damage.

WHAT IS SCOTTS EVERYDROP®?

Scotts Everydrop Water Storing Crystals advanced formula is **non toxic and acrylamide free**. Unlike other crystals, Scotts Everydrop **releases water back to the plant roots**.
