## Osmocote® The Original Controlled Release Plant Food™

Grow delicious vegetables and gorgeous bedding plants in your garden with Osmocote®, the original controlled release plant food. Osmocote® helps vegetables and garden plants flourish throughout the season by releasing all of the vital nutrients they need, when they need them most. Osmocote® Vegetable, Tomato, Herb & Garden Beds is the quick, clean, easy way to feed garden plants. Added organic compounds and the high Iron formula helps activate the soil and develop beautiful blooms and vegetables.

Osmocote® Vegetable, Tomato, Herb & Garden Beds feeds:

- All flowers
- All vegetables
- All herbs

Osmocote® is environmentally safe and will not burn plants when used as directed. This product contains a unique soil wetting agent to help the soil hold more water.

Osmocote® works with Nature.

Osmocote® contains all of the nutrients your plant needs including essential trace elements for a healthier plant.

Soil moisture activates Osmocote® Controlled Release Plant Food but Osmocote® soya bean oil resin coating only releases the plant food in response to soil temperature.

Osmocote® controls the release of the plant food ensuring the plant receives nutrition when needed. Osmocote® eliminates fertiliser waste, run-off and leaching.

Try other Osmocote® products. Osmocote® Vegetable, Tomato, Herb & Garden Beds is formulated for outdoor garden use. For container grown plants, try Osmocote® Pots, Planters & Indoors, specially formulated to meet the needs of plants grown in potting mixes.

### Directions for Use

Apply Osmocote® Vegetable, Tomato, Herb & Garden Beds around your garden plants every 6 months. Sprinkle 4 tablespoons per square metre of garden area and lightly rake in or cover with topsoil or mulch.

New Garden Beds: Scatter 6 tablespoons of Osmocote® per square metre.

Mix Osmocote® evenly throughout fresh soil prior to planting.

### Application Rates

Ideal For	Planting	Established Plants
Annual garden beds		
Flowers	6 TBL per m <sup>2</sup> or	4 TBL per m <sup>2</sup> or
Vegetables	½ TBL per plant	½ TBL per plant
Bulbs		
Strawberries		
Tomatoes	1 TBL per plant	2 TBL per plant
Capsicum		
Herbs		

TBL = tablespoon = 15g

### Guaranteed Analysis

Nitrogen (N)	17.3%
as Ammonium Nitrogen	2.1%
as Nitrate Nitrogen	1.3%
as Urea Nitrogen	11.4%
as Organic Nitrogen	2.5%
Phosphorus (P) soluble in neutral ammonium citrate and water	1.9%
Water soluble	1.6%
Potassium (K)	6.8%
