Osmocote® The Original Controlled Release Plant Food™

Osmocote® Total All Purpose contains boosted Trace Elements, which help rejuvenate tired plants. The high Iron formula promotes beautiful green foliage year round. Osmocote® slowly supplies essential nutrition to promote vigorous root growth and lush foliage, and to develop beautiful blooms and fruit.

Osmocote® works with Nature.

Osmocote® contains all of the nutrients your plant needs including essential trace elements for a healthier plant. Soil moisture activates Osmocote® Controlled Release Plant Food but Osmocote® soya bean oil resin releases the plant food in response to soil temperature. Osmocote® controls the release of the plant food ensuring the plant receives nutrition when needed. Osmocote® minimises fertiliser waste, run-off and leaching.

Safe: Osmocote® will not burn plants, when used as directed. This product contains a unique soil wetting agent to help the soil hold more water.

The Plant Food The Professionals Use.

Professional nurseries have relied on Osmocote® for 30 years, so you are feeding your plants with a product professionals trust!

Directions for Use

At Planting: Mix Osmocote® Total All Purpose into the backfill soil. Fill around the roots in the planting hole with the enriched soil and water thoroughly.

Reapply Osmocote® in 12 months according to the maintenance rates.

Established Plants: Sprinkle 1 tablespoon of Osmocote® per 30cm of plant height around the plant's dripline soil below the outer leaves. Lightly scratch into soil or cover with topsoil or mulch.

When to Apply: Suitable for application year round. For best results apply in spring when new growth appears and late summer.

Application Rates

Pots	Pot Diameter	Amount of Osmocote®
Indoor & Outdoor Maintenance or Re-Potting	15cm	½ TBL
	20cm	1 TBL
	25cm	2 TBL
	30cm	4 TBL
Annual Garden beds Flowers, Vegetables & Bulbs	Planting	Maintenance
	6 TBL per m ² or ½ TBL per plant	4 TBL per m ² or ½ TBL per plant
Trees and Shrubs Including natives & fruit trees	1 TBL per 30cm of plant height, spread around root zone and mulch	

1 TBL = Tablespoon = 15g

Guaranteed Analysis
