## Osmocote® The Original Controlled Release Plant Food™

Many Australian native plants are sensitive to too much Phosphorus (P) in fertilisers. Osmocote® Native Gardens is especially formulated with low Phosphorus and high Iron, perfectly suited for Phosphorus sensitive plants. Osmocote® slowly supplies essential nutrition to promote vigorous root growth and lush foliage.

### Osmocote® works with Nature.

Osmocote® contains all of the nutrients your plant needs including essential trace elements for a healthier plant. Soil moisture activates Osmocote® Controlled Release Plant Food but Osmocote® soya bean oil resin coating only releases the plant food in response to soil temperature.

Osmocote® controls the release of the plant food ensuring the plant receives nutrition when needed. Osmocote® minimises fertiliser waste, run-off and leaching.

Osmocote® is environmentally safe and will not burn plants, when used as directed. This product contains a unique soil wetting agent to help the soil hold more water.

**Try Other Osmocote® Products.** Osmocote® Native Gardens is formulated for feeding Phosphorus sensitive plants. For trees or shrubs grown in the garden try Osmocote® Fruit, Citrus, Trees & Shrubs Controlled Release Plant Food, formulated to meet the nutritional needs of fruiting and flowering plants.

## Directions for Use

**At Planting:** Mix Osmocote® Native Gardens into the backfill soil. Fill around the roots in the planting hole with the enriched soil and water thoroughly.

**Reapply Osmocote in 6 months** according to the maintenance rates.

**Established Plants:** Sprinkle one tablespoon Osmocote® per 30cm of plant height around the plant's drip line. Lightly scratch into soil or cover with topsoil or mulch.

**When to Apply:** Apply at anytime of the year. For best results, apply in spring when new growth appears and late summer.

### Application Rates

Ideal Food For	Planting	Maintenance
All Phosphorus sensitive native plants including: Grevillea Hakea Protea Boronia	20cm pot = 2 TBL 25cm pot = 3 TBL 30cm pot = 4 TBL	1 TBL for every 30cm of plant height

TBL = tablespoon = 15g

## Guaranteed Analysis

**Nitrogen (N)** 21.8%  
 as Ammonium Nitrogen 1.1%  
 as Nitrate Nitrogen 0.9%  
 as Urea Nitrogen 19.8%

**Phosphorus (P)** soluble in neutral ammonium citrate and water 0.7%  
 Water soluble 0.6%

**Potassium (K)** as sulphate 7.2%  
**Sulphur (S)** as elemental and sulphate 11.6%  
 Calcium (Ca) 0.3%  
 Magnesium (Mg) (1200mg/kg) 0.1%  
 Iron (Fe) (21650mg/kg) 2.2%

### Trace elements - mg/kg

Boron (B) 20  
 Copper (Cu) 50  
 Manganese (Mn) 60  
 Molybdenum (Mo) 20  
 Zinc (Zn) 15

This product contains 0.7mg/kg cadmium (Cd), 3.1mg/kg lead (Pb) and less than detectable levels of mercury (Hg). Therefore this product may be used without restriction on food and animal feed crops.
