

Osmocote® The Original Controlled Release Plant Food™

Grow gorgeous blooms and lush foliage on all your outdoor and indoor plants with Osmocote®, the original controlled release plant food. Osmocote® helps your pot plants flourish throughout their growth cycle by releasing all of the vital nutrients they need, when they need them most. The high Potassium and low steady Nitrogen formula stimulates flowering and maximises blooms.

Osmocote® is environmentally safe and will not burn plants when used as directed. This product contains a unique soil wetting agent to help the soil hold more water.

Osmocote® works with Nature.

Osmocote® contains all of the nutrients your plant needs including essential trace elements for a healthier plant.

Soil moisture activates Osmocote® Controlled Release Plant Food but Osmocote® soya bean oil resin coating only releases the plant food in response to soil temperature. Osmocote® controls the release of the plant food ensuring the plant receives nutrition when needed. Osmocote® minimises fertiliser waste, run-off and leaching.

Directions for Use

Simply mix Osmocote® into the soil around your pot plants and water thoroughly.

Reapply in 6 months according to the application rates.

Application Rates

Pot Diameter	Amount of Osmocote®
15cm	1 TBL
20cm	2 TBL
25cm	3 TBL
30cm	5 TBL

TBL = tablespoon = 15g

Guaranteed Analysis

Nitrogen (N)	15.3%
as Ammonium Nitrogen	2.7%
as Nitrate Nitrogen	1.9%
as Urea Nitrogen	10.6%
Phosphorus (P) soluble in neutral ammonium citrate and water	1.96%
Water soluble	1.6%
Potassium (K) as potassium sulphate	12.6%
Sulphur (S) as elemental and sulphate	9.8%
Calcium (Ca)	0.3%
Magnesium (Mg) (3000mg/kg)	0.3%
Iron (Fe) (2200mg/kg)	0.2%
Trace elements - mg/kg	
Boron (B)	50
Copper (Cu)	125
Manganese (Mn)	150
Molybdenum (Mo)	50
Zinc (Zn)	38

This product contains 0.6mg/kg cadmium (Cd), 2.2mg/kg lead (Pb) and less than detectable levels of mercury (Hg). Therefore this product may be used without restriction on food and animal feed crops.
