

Osmocote® The Original Controlled Release Plant Food™

Flowering plants produce gorgeous blooms and lush foliage with Osmocote®, the original controlled release plant food. Osmocote® helps Roses and acid-loving plants such as Azaleas, Camellias and Gardenias flourish throughout the year by releasing the vital nutrients the plants need, when they need them most.

The enhanced levels of slow release Iron and Magnesium promote beautiful dark green foliage.

Osmocote® Roses, Gardenias, Azaleas & Camellias provides all the essential nutrition plus boosted Iron and Magnesium needed to promote beautiful blooms, lush foliage and strong root growth.

Osmocote® Roses, Gardenias, Azaleas & Camellias is the quick, clean, easy way to feed roses and all acid-loving plants, whether grown in the garden or grown in pots on the patio or balcony.

Osmocote® is environmentally safe and will not burn plants when used as directed. This product contains a unique soil wetting agent to help the soil hold more water.

Directions for Use

For Established Plants: Sprinkle Osmocote® on the soil around your plants every 6 months during the growing season.

At Planting: Mix Osmocote® into the backfill soil. Fill around the roots in the planting hole with the enriched soil and water thoroughly.

Reapply in 6 months according to the maintenance rates.

When to Apply: For best results, apply in spring before plants set buds for the first bloom and again in summer to maintain flowering through to autumn.

Application Rates

Plant	Planting	Maintenance
Roses		Years 1-3 6 TBL
Azaleas	10cm pot = 2 TBL	per bush
Camellias	15cm pot = 3 TBL	Year 4 & on 10 TBL
Gardenias	20cm pot = 4 TBL	per bush
Rhododendrons		

TBL = tablespoon = 15g
