

## Osmocote® The Original Controlled Release Plant Food™

Osmocote® Potted Plants Controlled Release Fertiliser releases vital nutrients that your plants need, when they need it the most. Osmocote® slowly supplies your potted plants with essential nutrition to promote vigorous root growth, lush foliage and beautiful blooms.

Osmocote® contains all of the nutrients your potted plants need including essential trace elements for healthier plants.

Osmocote® provides a substantial increase in nutrient uptake compared to regular fertilisers and will not burn plants when used as directed.

Soil moisture activates Osmocote® Controlled Release Plant Food but Osmocote® coating only releases the plant food in response to soil temperature. Osmocote® controls the release of the plant food ensuring the plant receives nutrition when needed.

Osmocote® minimises fertiliser waste, run-off and leaching.

### Directions for Use

Simply mix Osmocote® Potted Plants into the soil around your pot plants and water thoroughly.

Reapply in 4 months according to the application rates.

Application Rates	
Pot Diameter	Amount of Osmocote®
15cm	1 TBL
20cm	2 TBL
25cm	3 TBL
30cm	5 TBL
45cm	3/4 CUP

TBL = tablespoon = 15g

### Guaranteed Analysis

**Nitrogen (N)** 14.0%  
as Ammonium 3.9%  
as Nitrate 3.5%  
as Urea 6.5%

**Phosphorus (P)** 1.6%  
Water soluble 1.2%  
Citrate soluble 0.4%

**Potassium (K)** 13.0%  
as Sulphate 13.0%

**Sulphur (S)** 9.0%  
as elemental 2.0%  
as sulphate 7.0%

**Magnesium (Mg)** 3.0%  
**Iron (Fe)** 2.0%

**N:P ratio 8:1**
