‡ Australian Buffalo (Stenotaphrum sp) cannot be grown from seed however a Buffalo lawn will self-repair with a proper fertilising and watering routine. If you wish for quicker results, then Patch Magic is for you. Patch Magic uses other fast growing grass varieties to cover the bare patch while your Buffalo grass grows and eventually overtakes the area.

FRESHNESS MATTERS - for best results, always use fresh product. After opening, plant within the season.

WARNING: Avoid breathing dusts and mists (bioaerosols). Wear particulate mask if dusty. Wear gloves when handling. Wash hands immediately after use. Store in a cool dry place, out of reach of children.

The seeding mix that takes care of the seed for you, so you can grow thick, beautiful grass **ANYWHERE!**[^]

Dry, sunny or dense shade areas!

Survives wear and tear!

Even grows on concrete!

[^]subject to proper care
[™]Based on 30cm x 30cm

SHAKE WELL BEFORE USE

Grows Grass ANYWHERE![^]

Dry, sunny or dense shade areas!

Survives wear and tear!

Even grows on concrete!

Getting the results you want with lawn seed can be a challenge.

Patch Magic's unique mulch absorbs water like a sponge, expanding to surround the seeds in a moist protective layer. It continues to care for the seeds so they build stronger roots that survive tough conditions. Just put it down, add water and let it go to work!

RESULTS: 50% THICKER GRASS with HALF THE WATER*

Ordinary seed

Lawn Builder™ Patch Magic™

*Results 32 days after planting; each watered at half the recommended rate for ordinary seed. Results may vary.

3 STEPS TO SUCCESS!

IMPORTANT: Expands up to 5x in size with water. Use as per instructions. Best sown in Autumn and Spring.

1. PREP

Simply prepare the area where you want to grow grass. Remove dead grass, weeds and loosen hard soil to a depth of 5cm to help tiny seedlings root. Shake well before use.

2. APPLY

Evenly apply Patch Magic™ so the area is mostly covered, but bare ground is still visible (use half as much for thin areas.) Only apply the recommended amount so that seedlings have enough space to access water and nutrients.

3. WATER

A deep and thorough initial watering is the key to success. Gently water the area until Patch Magic™ is completely saturated and no more water is being absorbed. Keep moist especially in hot or windy conditions.

Lawn Builder™ Patch Magic™ will tell you when it is time to water again. When it turns light brown, add more water!
