

SHAKE WELL BEFORE USE

1. Push in tab
2. Pull out reclosable spout

Ever wonder why professional playing fields are lush and green in Winter?

The grass seed blend in Scotts Lawn Builder Lawn Thickener will complement your existing lawn by growing lush and green in Winter when your lawn is dormant.

Scotts Lawn Builder **Lawn Thickener** adds the nutrients to **replenish** your soil as well as a professional seed blend that will **supplement** your existing grass to create a **thicker, greener** lawn year round.

3 SIMPLE STEPS TO OVERSOW

1. PREP

Mow the lawn. Determine the size of your area in m² by multiplying the length by the width.
1 large stride is approx. 1 metre.
Shake the box well before use.

2. APPLY

Apply approx. 2 handfuls (28g) per m² by moving backward as you scatter the seed. Ensure the seed is evenly dispersed.

3. WATER

Deep water the area using a soft spray and keep the area evenly moist for the first 3 weeks, do not mow for 3 weeks after application.

HELPFUL LAWN CARE TIPS

- Keep soil moist for the next few weeks until the grass is established.
- Trim the grass when 5-8cm tall.
- When mowing, do not remove more than 1/3 growth at any one time.
- Fertilise the whole lawn after 3 months with Scotts Lawn Builder.
- For small patches on your lawn, try Scotts Lawn Builder Patch Magic™.

Limit: One package per household

FRESHNESS MATTERS- for best results,
always use fresh product. After
opening, plant within the season.

WARNING: Avoid breathing dusts and mists
(bioaerosols). Wear particulate mask if dusty.
Wear gloves when handling. Wash hands
immediately after use. Store in a cool dry
place, out of reach of children.

The best time to oversow is
Autumn through Spring.
An Autumn application will
provide winter greening.

*Versus ordinary seed without fertiliser and subject to proper care
