

Debco Indoor Potting Mix has been developed from years of experience in the production of superior potting mixes for professional growers.

Indoor contains quality key additives to deliver optimal growth for a **broad range of indoor plants**. Specifically formulated to be less prone to fungus gnats*, this mix has good water holding capacity and aeration to promote healthy plant establishment and development.

Controlled Release Fertiliser
Distributes nutrients as plants need it, up to 6 months

Trace Elements
Micro-nutrients vital to plant growth

Sphagnum Peat
Improves water holding for circulation and better root development

Coir Peat
Increases water holding capacity

Perlite
Improves aeration, moisture retention and drainage

HOW MUCH MIX?

POT SIZE	VOLUME	10L BAGS
20cm*	4L	1
25cm*	10L	1
30cm*	18L	2

SUSTAINABILITY COMMITMENT

Materials used in the production of Debco potting mixes are sourced from renewable and sustainable resources where possible.

This packaging is recyclable through the REDcycle Program. To find your nearest drop off location, visit www.redcycle.net.au

* Contains no compost of bark, which are known to shelter fungus gnats. This product is not intended for commercial use.

Indoor

HOW TO USE

Debco Indoor Plants Premium Potting Mix is ready to use straight from the bag with no further additives required.

- 1 Select a clean pot at least 25mm wider than the original and partly fill with potting mix.
- 2 Turn the plant out of its container, loosen root ball gently and remove any rotten or entirely dried out roots.
- 3 Position the plant in the pot and fill with potting mix. Do not pack down.
- 4 Water thoroughly and protect plant from wind, heat and strong sunlight for around 5 days.

ONGOING PLANT CARE

- Debco Indoor Premium Potting Mix contains a balanced fertiliser but additional fertiliser may be required in time, depending on plant needs.
- Plants should be watered immediately after potting and frequently enough to ensure the mix remains moist but not wet. Avoid allowing plants to dry out.
- Plants should be re-potted with new potting mix when they outgrow the pot or after 12-18 months.

SAFETY TIPS

We recommend you always wear gloves when gardening. Wear a particulate mask if dusty.

HAZARDOUS

This mix complies with the requirements of AS3743 for a premium grade potting mix.

COMPOSTS, POTTING MIXES AND OTHER ORGANIC GARDENING MATERIALS
This product is made from organic materials and contains living micro-organisms, including bacteria, fungi and protozoa. Also contains mineral and fertiliser additives.

RISK

Inhalation of dust and/or liquid mists may irritate, inflame or sensitise the nose, throat and lungs resulting in illnesses ranging from hayfever or asthma, to pneumonia (e.g. Legionnaire's disease) or pneumonia-like illnesses. Direct contact with this material or its dust and/or liquid mists (bioaerosols) may cause skin irritation (dermatitis), and skin or eye infection or irritation. People particularly at risk are those suffering from asthma or allergies, and those whose immune defence systems are compromised.

SAFETY

Avoid contact with eyes and skin. Avoid breathing dust and/or liquid mists (bioaerosols). Wear suitable protective clothing and standard duty gloves (AS/NZS 2161.2). If exposed to dust and/or liquid mists, also wear dust resistant eye protection (AS/NZS 1336) and particulate respirator (AS/NZS 1715 and AS/NZS 1716). Wash thoroughly immediately after handling. Wash work clothes regularly. Clean up by wet sweeping or vacuuming. Store this product in a cool location.

FIRST AID

Irrigate eyes with plenty of water for 10 minutes. Wash skin with soap and water. Seek medical attention for any persistent skin, eye or respiratory symptoms.

DISPOSAL

Follow above safety precautions and collect in containers for disposal as trade waste in accordance with local authority guidelines.

For further information refer to the Safety Data sheet.
