

Debco **Cacti & Succulent** Superior Potting Mix is the first formulated mixture for the home gardener based on professional standards and on special blends used by wholesale nursery growers.

Food & Nutrition

Controlled release fertiliser promotes fast and continuous growth.

Essential trace elements ensure strong healthy plants.

A balanced fertiliser should be used from the time of potting.

Water

SaturAid

Granular

Wetting Agent

gets water

directly to the root system.

Support

Made from quality composted Pine Bark. A long-lasting mix with good drainage and aeration for optimal plant establishment and development.

HAZARDOUS

COMPOSTS, POTTING MIXES AND OTHER ORGANIC GARDENING MATERIALS

This product is made from organic materials, including composted pinebark, and contains living micro organisms including bacteria, fungi and protozoa. May also contain mineral and fertiliser additives.

RISK Inhalation of dust and/or liquid mists may irritate, inflame or sensitise the nose, throat and lungs resulting in illnesses ranging from hayfever or asthma, to pneumonia (eg Legionnaire's disease) or pneumonia-like illnesses. Direct contact with this material or its dust and/or liquid mists (bioaerosols) may cause skin irritation (dermatitis), and skin or eye infection or irritation. People particularly at risk are those suffering from asthma or allergies, and those whose immune defence systems are compromised.

SAFETY Avoid contact with eyes and skin.
Avoid breathing dust and/or mists (bioaerosols).
Wear suitable protective clothing and standard light gloves (AS2161).
If exposed to dust and/or liquid mists, also wear dust resistant eye protection (AS/NZS 1336) and particulate respirator (AS/NZS1715 or 1716).
Wash thoroughly immediately after handling.
Wash work clothes regularly.
Clean up by wet sweeping or vacuuming.
Store this product in a cool location.

FIRST AID Irrigate eyes with plenty of water for 10 minutes.
Wash skin with soap and water.
Seek medical attention for any persistent skin, eye or respiratory symptoms.

DISPOSAL Follow above safety precautions and collect in containers for disposal as trade waste in accordance with local authority guidelines.

DISCLAIMER The information contained on this label is given in good faith. It is accurate to the best of our knowledge but as the manufacturer or supplier cannot exercise control over the use of this product, they accept no responsibility for any damage, injury or loss of living things, soils or materials which may result from its use or storage.

Debco is committed to using renewable resources wherever possible. Cacti & Succulent is produced with renewable resources.

HOW TO USE

Cacti and Succulents are generally very hardy plants but can have soft tissues, needles or spines and fragile root systems which all require special care when handling.

How to get the best results

- 1 Remove the old plant from its pot, this may have to be done wearing leather gloves to protect hands from the spines. A soft towel can be used to hold the top part of the plant.
- 2 Carefully remove any old loose potting mix from the root ball, minimising the amount of root disturbance.
- 3 Partly fill the new pot with potting mix allowing for the required depth of the old root ball. Place the plant into the pot and once happy with position, carefully fill the pot with potting mix, ensuring the mix surrounds all of the roots.
- 4 Tap the freshly potted plant lightly on the bench or ground to settle the potting mix in the pot.
- 5 Water in thoroughly and allow draining and drying in a warm sunny position. If potting during cool months use moist potting mix and water one week after potting.

DEBCO QUALITY

Debco is a committed member of Nursery Industry Associations and Australian Standards for Potting Mix committee. Debco is a significant contributor to the maintenance of Australian Standards and uses the standards of professional nursery growers as the benchmark for the production of these products. Debco is **the choice of leading professional growers** for the production of best quality flowering annuals & perennials, trees & shrubs and mature plants.
