

# Organic Mix

superior potting & planting mix

Debco **Organic Mix** is a NASAA certified premium input for organic gardens. Using Debco Organic Mix will provide essential nutrients, trace elements and minerals in a safe and readily available form for healthy plant growth.

Debco Organic Mix encourages beneficial micro-organisms and has great soil water retention.

Debco Organic Mix has been specially blended to give home gardeners the ability to grow a wide range of organic vegetables, herbs, salad greens and strawberries.

- **Contains premium quality organic blood & bone fertilisers.**
- **Contains premium-grade quality composted pine bark.**
- **pH balanced.**
- **100% NASAA certified input.**

## HAZARDOUS

### COMPOSTS, POTTING MIXES AND OTHER ORGANIC GARDENING MATERIALS

This product is made from organic materials, including composted pinebark, and contains living micro organisms including bacteria, fungi and protozoa. May also contain mineral and fertiliser additives.

**RISK** Inhalation of dust and/or liquid mists may irritate, inflame or sensitise the nose, throat and lungs resulting in illnesses ranging from hayfever or asthma, to pneumonia (eg Legionnaire's disease) or pneumonia-like illnesses. Direct contact with this material or its dust and/or liquid mists (bioaerosols) may cause skin irritation (dermatitis), and skin or eye infection or irritation. People particularly at risk are those suffering from asthma or allergies, and those whose immune defence systems are compromised.

**SAFETY** Avoid contact with eyes and skin. Avoid breathing dust and/or mists (bioaerosols). Wear suitable protective clothing and standard light gloves (AS2161). If exposed to dust and/or liquid mists, also wear dust resistant eye protection (AS/NZS 1336) and particulate respirator (AS/NZS1715 or 1716). Wash thoroughly immediately after handling. Wash work clothes regularly. Clean up by wet sweeping or vacuuming. Store this product in a cool location.

**FIRST AID** Irrigate eyes with plenty of water for 10 minutes. Wash skin with soap and water. Seek medical attention for any persistent skin, eye or respiratory symptoms.

**DISPOSAL** Follow above safety precautions and collect in containers for disposal as trade waste in accordance with local authority guidelines.

**MANUFACTURER** DEBCO PTY LTD, 12 MCKIRDYS ROAD, TYABB VIC 3913 AUSTRALIA

For further information refer to the Material Safety Data Sheet for this product which is available from Debco Pty Ltd.

**DISCLAIMER** The information contained on this label is given in good faith. It is accurate to the best of our knowledge but as the manufacturer or supplier cannot exercise control over the use of this product, they accept no responsibility for any damage, injury or loss of living things, soils or materials which may result from its use or storage.

Debco is committed to using renewable resources wherever possible. Organic Superior Potting & Planting Mix is produced with renewable resources.

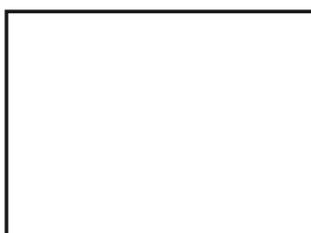

## HOW TO USE

**1** Debco Organic Superior Potting & Planting Mix is ready to use straight from the bag. For the best results do not blend with anything.

**2** Prepare as many plants and pots as possible for potting at one time. Water plants an hour ahead of time and allow to drain to reduce stress on new plants.

**3** Select a clean pot at least 25mm wider than the original and partly fill with potting mix.

**4** Turn the plant out of its container. Loosen root ball gently and remove any rotten or entirely dried out roots.

**5** Position the plants in the pot and fill with new potting mix. Do not firm or pack down.

**6** Soak with water and protect plant from wind, heat and strong sunlight for around 5 days.

**7** Close the bag tightly and store unused mix in a cool dry spot.

**In Ground Use:** Blend Organic Mix with your garden soil and dig a hole for planting potted or bare-rooted plants.

## ONGOING PLANT CARE

This mix already has enough nutrients to last around 3 months. We recommend you feed regularly with a quality fertiliser as per the instructions on the pack.

Plants should be watered immediately after potting and frequently enough to ensure the mix remains moist but not wet. Avoid allowing plants to dry out.

Plants should be re-potted with new potting mix when they outgrow the pot or after 12-18 months.

## HOW MUCH MIX?

POT SIZE	VOLUME	BAGS
½ WINE BARREL	120 L	5 bags
500mm (20")	40 L	2 bags
400mm (16")	30 L	1.5 bags
300mm (12")	20 L	1 bag
250mm (10")	10 L	0.5 bags
IN GROUND	RATIO OF MIX TO SOIL	MAKES NO. OF LITRES
BLENDED WITH GARDEN SOIL	1:1	50 LITRES
