Raised Garden

Value Pack

Debco Raised Garden Mix has been developed from years of experience in the production of superior potting mixes for professional growers.

Raised Garden Mix contains quality key additives to deliver optimal growth for plants in raised garden beds, large planter boxes and when constructing new vegetable gardens. This mix has been specially formulated to support strong growth for a **broad range of plants including vegetables, herbs and salad greens in these conditions.**

Controlled Release Fertiliser
Distributes nutrients as plants need it, up to 4 months

Wetting Agent
Ensures nutrients get to the root zone

Trace Elements
Micro-nutrients vital to plant growth

HOW MUCH MIX?

PLANTING MIX

$$\frac{\text{Length (cm)} \times \text{Width (cm)} \times \text{Height (cm)}}{\text{(divided by) } 1000} = \text{Litres required}$$

SUSTAINABILITY COMMITMENT

Materials used in the production of Debco potting mixes are sourced from renewable and sustainable resources where possible.

HOW TO USE

Debco Raised Garden Bed Mix is ready to use straight from the bag with no further additives required.

- Position your raised garden bed in a level, sunny protected area of the garden.
- Ensure excess water can drain from your garden bed or turn over the soil underneath to improve drainage.
- Fill the raised garden bed using this premium mix allowing room to add the new plants.
- Follow the instructions on the plant tag.
- Position the plants before planting to ensure each plant has adequate room to grow and will receive sunlight.
- Turn the plant out of its container. Loosen root ball gently and remove any rotten or entirely dried out roots.
- Fill around the plants with planting mix and do not pack down.
- Soak with water and protect plants from wind, heat and strong sunlight for around 5 days.

ONGOING PLANT CARE

- Debco Raised Garden Bed Mix is a balanced 4 month fertiliser but additional fertiliser may be required in time, depending on plant needs.
- Plants should be watered immediately after planting and frequently enough to ensure the mix remains moist but not wet. Avoid allowing plants to dry out.

SAFETY TIPS

We recommend you always wear gloves when gardening. Wear a particulate mask if dusty.

HAZARDOUS

This mix complies with the requirements of AS3743 for a premium grade potting mix.

COMPOSTS, POTTING MIXES AND OTHER ORGANIC GARDENING MATERIALS
This product is made from organic materials, including composted pinebark, and contains living micro-organisms, including bacteria, fungi and protozoa. Also contains mineral and fertiliser additives.

RISK
Inhalation of dust and/or liquid mists may irritate, inflame or sensitise the nose, throat and lungs resulting in illnesses ranging from hayfever or asthma, to pneumonia (e.g. Legionnaire's disease) or pneumonia-like illnesses. Direct contact with this material or its dust and/or liquid mists (bioaerosols) may cause skin irritation (dermatitis), and skin or eye infection or irritation. People particularly at risk are those suffering from asthma or allergies, and those whose immune defence systems are compromised.

SAFETY
Avoid contact with eyes and skin. Avoid breathing dust and/or liquid mists (bioaerosols). Wear suitable protective clothing and standard duty gloves (AS/NZS 2161.2). If exposed to dust and/or liquid mists, also wear dust resistant eye protection (AS/NZS 1336) and particulate respirator (AS/NZS 1715 and AS/NZS 1716). Wash thoroughly immediately after handling. Wash work clothes regularly. Clean up by wet sweeping or vacuuming. Store this product in a cool location.

FIRST AID
Irrigate eyes with plenty of water for 10 minutes. Wash skin with soap and water. Seek medical attention for any persistent skin, eye or respiratory symptoms.

DISPOSAL
Follow above safety precautions and collect in containers for disposal as trade waste in accordance with local authority guidelines.

For further information refer to the Safety Data sheet.
