

## HOW TO USE

Shake well before using.  
Measure the required quantity of concentrate as instructed with a measuring jug.

### GARDEN BEDS & LAWNS

Mix 25ml of SaturAid concentrate (approx. 1.5 capfuls) in a 9 litre watering can and apply over an area of 5 square metres. After application, water treated areas in well. Wash off plant foliage where applicable.

### POTS & HANGING BASKETS

Mix 25ml of SaturAid concentrate (approx. 1.5 capfuls) in a 9 litre watering can and apply 0.5 litres to each 20-50cm pot. After application, water in treated areas well and wash off plant foliage. Re-apply frequently during dry conditions.

### SAFETY

If contact occurs with skin or eyes wash area with clean water.

**SaturAid**  
Concentrated Wetting Agent

Debco's **SaturAid** Wetting Agent is produced to the highest standards from premium quality materials. SaturAid works immediately to break down soil particles surface tension allowing maximum rehydration of soils and potting mixes.

**Increases water penetration** Gets water deep into dry soils. Watering becomes more effective and frequency is reduced.

**Improves water retention** Allows soil particles to absorb water at the root zone resulting in stronger, deeper root systems.

**Fast acting** SaturAid in liquid form starts working immediately.

**Non-toxic** Safe for all plant types and safe to use around ponds and waterways.
