

Debco's **SaturAid** Granular Wetting Agent makes water soak deep down to the root zone of garden beds, pots and lawns for stronger, deeper root systems and healthier plants and lawns.

SaturAid works immediately so watering, rainfall and liquid feeding are more effective, even in hard-to-wet sandy, clay or compacted soils and potting mixes.

SaturAid has a sustained, slow-release wetting power for continued results, and is the choice of leading professional growers.

### **Increases water penetration**

Gets water deep into dry soils. Watering becomes more effective and the frequency is reduced.

### **Improves water retention**

Allows soil particles to absorb water at the root zone resulting in stronger, deeper root systems.

### **Long lasting**

SaturAid starts working immediately and lasts for up to 12 months.

### **Non-toxic**

Safe for all plant types and safe to use around ponds and waterways.

## **GARDEN BEDS AND LAWNS**

Mix into new garden beds to a depth of 10 cm or sprinkle on to existing garden beds or lawns.

**2.5 litres will cover QTY – dessertspoons/m<sup>2</sup>**

50 m<sup>2</sup>

**4 (20g)**

## **CONTAINERS, POTS & BASKETS**

Sprinkle on, or mix through potting mix

**SIZE – width QTY – dessertspoons**

250 mm (10 inch pot)

**1**

300 mm (12 inch pot)

**2**

400 mm (16 inch pot)

**4**

Application pro rata for other sizes.

**Water in after application.  
Re-apply every 6 months or as required.**
