## Here's How To Use...

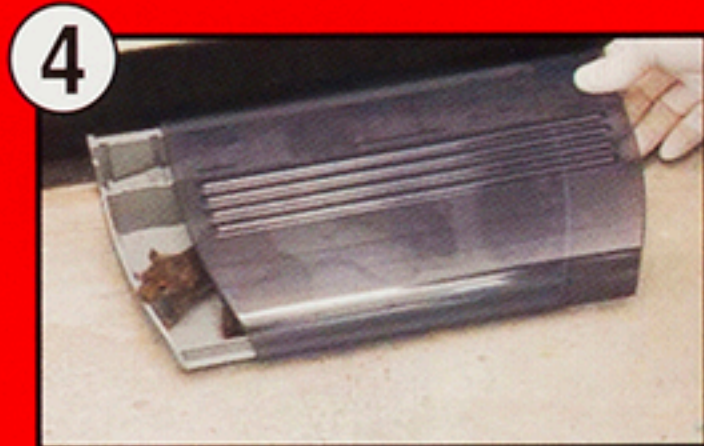

**1** Place TOMCAT LIVE CATCH TRAP along walls, making sure the entry holes are closest to the wall. Do not bait the trap.

**2** When entering a high-sens door capture inside

**3** Monitor rodent activity by checking tinted viewing lid one to two times daily.

**4** To release mice slide tinted lid as sh

\*For effective catch and release, trap must be monitored at least twice a day as mice can quickly dehydrate. If multiple mice are captured empty immediately as mice are territorial.
