

**TOMCAT MOUSE ATTRACTANT** can enhance the effectiveness of any mechanical trap. It has a desirable, gel-like consistency and "no-mess" spout making it the ideal alternative to cheese or peanut butter. **PLUS**, its taste is irresistible to mice and rats while being non-toxic to children and pets.

## How To Use...

Place a small, pencil eraser-sized amount onto appropriate area of trap.

Position trap in areas of identified activity.

**3** Monitor traps for activity. Move traps and/or rebait as necessary.
