Miracle-Gro®

COMPOST

FRUIT & VEGETABLES

BIGGER PLANTS, MORE CROPS, GREENER LEAVES – GUARANTEED‡

Our premium compost is proven to grow healthier plants at least twice as big as those grown in ordinary compost. Miracle-Gro® Compost – Fruit & Vegetables is ideal for plants in raised beds, pots and borders, with Aquacoir® technology to lock in moisture – so it's easier to water your plants and keep them hydrated. The Fibre Smart™ technology enables strong root development with improved water and nutrient absorption, resulting in bigger plants, more fruits and vegetables, and greener leaves – guaranteed.

We're so confident you'll love it, we'll replace it if you're not satisfied.

EXPERTLY CRAFTED USING PEAT FREE INGREDIENTS

Miracle-Gro® Compost – Fruit & Vegetables is peat free using a carefully selected mix of ingredients that your plants will love.

ENRICHED WITH 6 WEEKS FEED

This ready-to-use compost is enriched with organic plant food, which slowly releases vital nutrients over 6 weeks. That means less effort for you and all the nourishment your plants need to thrive – giving you more time to enjoy your garden.

MIRACLE-GRO® ROOTED IN SCIENCE

HOW MUCH COMPOST IS IN THIS BAG

8	4	1	6
*Medium Pots 22cm (9")	Large Pots 25cm (10")	Large Container 42cm (17")	Hanging Baskets 30cm (12")

HOW TO USE

This ready-to-use compost contains 6 weeks organic feed.

ALWAYS WEAR GLOVES

FOR CONTAINERS & BASKETS

Place a layer of compost in the base of the pot.

Tap out the plant from the old pot, loosen the root ball and place in the centre of the pot.

Fill the space around the root ball, ensuring the compost level covers all the roots.

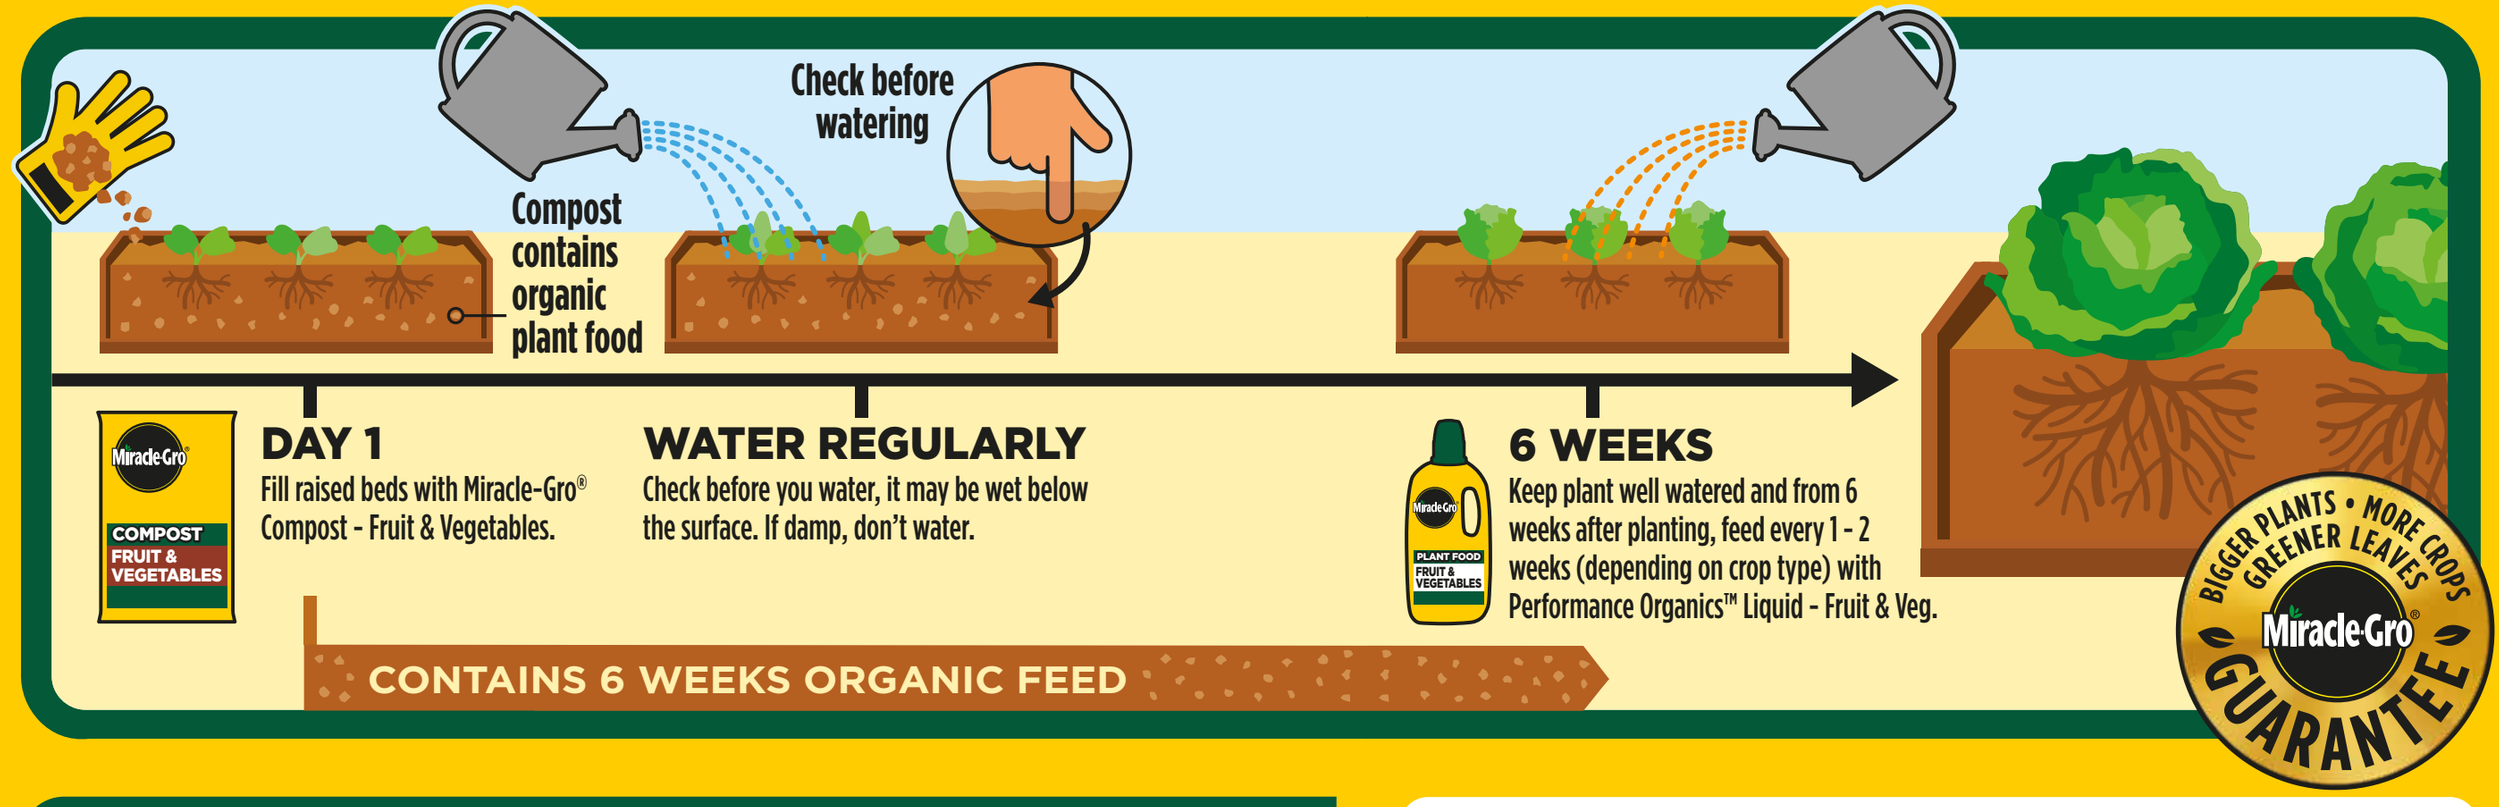

Firm lightly, place a saucer under the container to avoid water run-off, water thoroughly and let drain.

BEDS & BORDERS

Dig a hole twice the size of the root ball.

Position the plant and fill with 50% soil and 50% compost and firm around the base.

Water thoroughly.

USEFUL TIPS

- Sometimes you might see some white mould on your compost. This is not harmful to your plants and will disappear naturally.
- Some plants are hungrier than others so may need feeding earlier. If the leaves start to pale this is a sign to start feeding with a **Miracle-Gro® Plant Food.**
- Try to avoid compost in pots drying out, and don't let them sit in water, roots don't like being waterlogged!
- Outdoor pots and containers might need more water in the summer, so always do the finger test to check (see diagram above).
- Choose a sunny spot (6 – 8 hours of sun).
- Water deeply to reach the roots and check for pests and weeds regularly.
- Ensure well-draining soil or grow in pots and always follow spacing guides for airflow and healthy growth.
- Harvest at peak ripeness for best flavour
- Some fruits are ericaceous (e.g. blueberries) and should be planted in a specialist compost such as **Miracle-Gro® Azalea, Camellia and Rhododendron Compost.**

HEALTH, SAFETY & STORAGE ADVICE

Miracle-Gro® Compost – Fruit & Vegetables
Keep out of reach of children and pets. Wear gardening gloves and wash hands after use. Open bag carefully, use in a well ventilated area and avoid breathing in dust.
Storage: Keep the bag closed when in storage to prevent drying out. Store in a cool place, away from direct sunlight. Storage from one year to another may affect performance. Keep away from pesticides.
