EXPERTLY CRAFTED USING PEAT FREE INGREDIENTS

Miracle-Gro® Compost - Seeds, Plugs & Young Plants is peat free using a carefully selected mix of ingredients that your plants will love.

ENRICHED WITH 5 WEEKS FEED

This ready-to-use compost is enriched with Miracle-Gro® plant food granules, which slowly release vital nutrients over 5 weeks. That means less effort for you and all the nourishment your seeds and young plants need to thrive - giving you more time to enjoy your garden.

MIRACLE-GRO® ROOTED IN SCIENCE

HOW MUCH COMPOST IS IN THIS BAG

5

*Standard Seed Trays 34cm x 21 cm (13.5" x 8.25")

HOW TO USE

This ready-to-use compost contains 5 weeks feed.

SEEDS

ALWAYS WEAR GLOVES

Fill a seed or module tray with compost and level off with your hand or a ruler.

Sow the seeds as per packet instructions and cover lightly with compost, firming gently.

Water with a fine rose and cover seed tray with a lid to retain warmth and moisture but remove cover once germinated. **Make sure the tray is kept out of direct sunlight.**

When the seedlings are ready to be transplanted into individual pots, **take care to handle them by the leaves and not by the stems or roots.**

PLUGS & YOUNG PLANTS

Fill the container with compost.

Place the plug or young plant in a hole in the compost.

Firm lightly and water using a fine rose. Keep in a warm, well-lit place, out of direct sunlight. Water again only when the compost dries out. Only plant out once the risk of frost has passed.

USEFUL TIPS

- Sometimes you might see some white mould on your compost. This is not harmful to your plants and will disappear naturally.
- Some plants are hungrier than others so may need feeding earlier. If healthy seedlings start to pale consider feeding at half the standard rate with a **Miracle-Gro® Plant Food.**
- Try to avoid compost in pots drying out, and don't let them sit in water, roots don't like being waterlogged!

SEEDS:

- Choose easy-to-grow seeds if you're a beginner (e.g. tomatoes, peppers, herbs) and label your containers.
- Follow the sowing instructions – each seed has its own depth and spacing needs.
- Give seedlings plenty of light – a windowsill is perfect.
- Transplant with care – handle seedlings by the leaves and gradually acclimatise them to outdoor conditions before planting out.

PLUG PLANTS:

- Growing from plug plants is a quick and cost-effective way to grow your own.
- Choosing plugs: Select plugs with a well-developed, healthy root system for the best results.
- Make a hole and plant the plug at the same depth as in its original tray.
- Water lightly before planting to help the roots settle and reduce transplant shock.

HEALTH, SAFETY & STORAGE ADVICE

Miracle-Gro® Compost - Seeds, Plugs & Young Plants
Keep out of reach of children and pets. Wear gardening gloves and wash hands after use. Open bag carefully, use in a well ventilated area and avoid breathing in dust.
Storage: Keep the bag closed when in storage to prevent drying out. Store in a cool place, away from direct sunlight. Storage from one year to another may affect performance. Keep away from pesticides.
