Surface biocide for amateur use against algae. For use on outdoor hard surfaces such as patios, pathways, driveways, masonry plus decking and fencing. No scrubbing or pressure washing required. Kills algae within 5 minutes, visibly removes algae after 10-14 days.

INSTRUCTIONS FOR USE:

Maximum individual dose: 20 m² from 1L
Application rate for the product: 50 mL/m²
For the active: 0.25 g/m²

1. Remove Power Sprayer from side clip. Remove protective strip from battery compartment to activate. Unwrap plastic cover around hose. Pull out the red connector.

2. Insert the red connector firmly into the cap until it is tightly engaged. Twist the top of the cap anti clockwise to 'ON' position (¼ of a turn).

3. Flip open the Power Sprayer and lock into position. Twist nozzle to select spray setting. Point spray head 50 cm from surface to be treated. Spray on contaminated surface.

4. After use, twist the top of the cap clockwise to the 'OFF' position (¼ of a turn).

5. Squeeze Power Sprayer trigger to empty nozzle. Turn nozzle to 'OFF' and replace sprayer in the holder without disconnecting the red connector.

Spray in calm conditions. Don't apply if rain is expected in the following 24 hours.

Apply product evenly across a dry surface. Do not scrub or pressure-wash. Do not rinse with water. Do not spray or pour on plants. Keep children and pets away from treated areas until the area is completely dry. Avoid treating paved surfaces and equipment adjacent to waterways.

This product is poisonous to fish and other aquatic organisms.

Algal growth may discolour for several days after treatment. In the event of direct contact with plants, flush with clean water.

Keep animals off treated surfaces until completely dry (often 5-6 hours).

SAFETY PRECAUTIONS: Use biocides safely and sustainably. This product should be used in accordance with the product label.

Replacing the batteries: Open battery compartment at the bottom of Power Sprayer, remove the used batteries and dispose safely. Replace with new AA batteries in the correct position as marked inside the battery compartment. Securely close battery compartment door. Never mix alkaline, carbon-zinc or rechargeable batteries.
