

ACTIVATION

Activate the unit by pressing down firmly on the top round button of the bait station.

TARGET ORGANISMS

Black garden ant (*Lasius niger*).

APPLICATION

Bait station insecticide for non-professional use against ants in domestic premises. Bait station application. The product contains honey as an attractant.

RISK MITIGATION MEASURES

FOR USE AS AN INSECTICIDE ONLY. Prevent access to bait by children or animals. Wash hands and exposed skin before meals and after use. Do not use directly on or near food, feed, and drinks, or on surfaces or utensils likely to be in direct contact with food, feed, drinks, or animals. Keep out of reach of children. This material and its container must be disposed of in a safe way. Do not contaminate waterbodies or watercourses with chemicals or used container. Keep away from food, drink and animal feeding stuffs. Unused product in its container must be disposed of via solid waste. Do not open the bait station by force. In the case of reduced efficacy or suspected development of resistance discontinue use.

The user is advised to contact a professional pest control operator. Apply only in areas that are not liable to submersion or becoming wet (i.e., protected from rain, floods and cleaning water).

INSTRUCTIONS FOR USE

Comply with all instructions for use. Place the bait station on an even surface near ant nests, trails or where ants access the room. Apply the product away from direct sunlight or heat sources (e.g. do not place it under a radiator). Works for up to 90-days after activation.

Indoors: 1-2 bait stations per room, not exceeding 1 bait station per 8 m².

Outdoors: 1-2 bait stations per nest, not exceeding 4 bait station per 30 m². Place the product on hard surfaces i.e., terraces, balconies, patios and sidewalks close to entrances to sheds, garages and domestic buildings near to ant paths and around the perimeter of buildings, preferably in a place sheltered from moisture.

Active ingredient: 1 g/kg (0.1% w/w) 1R-trans-phenothrin (CAS Number 26046-85-5).

Product type: PT18 Insecticides, acaricides and products to control other arthropods.

Formulation type: Ready-to-use bait (RB).

Target organisms: *Lasius niger* (Black Garden Ant).

Category of users: Amateur (non-professional user).
