

# Lawn Builder™

## THICK & GREEN

Feeds for 3 months to thicken and green all lawns

## NURTURES SEED & TURF

Delivers a tailored blend of nutrients specially designed for new grass

## STRENGTHENS ROOT GROWTH

Sulphur, Calcium, Nitrogen and Iron promotes grass and root development

## HOW TO USE

**PREP** the soil to be fine and weed-free. Use a fork to turn over the top 5-10cm of soil.

**TIP:** Add a 3cm layer of Scott's® Lawn Builder™ Topdress & Underlay Lawn Soil during prep for ideal soil conditions.

**1. CALCULATE** how much to use (see side of pack) and apply fertiliser to soil evenly.

**2. APPLY TURF** by rolling out, ensuring no gaps.

or **APPLY SEED** (check pack instructions) and lightly rake over.

**3. WATER** as required to keep seed or turf moist until established.

## USEFUL TIPS

### FOR TURF:

- ✓ Always cut your turf with a sharp knife - never rip it.
- ✓ When laying turf on a slope, plant it across the slope, not downwards.

### FOR SEED:

- ✓ Deep water the area using a soft spray so the seeds do not wash away.
- ✓ Keep the area evenly moist until the seedlings reach 5-8cm tall. First mow when seedlings reach 8-10cm.

## 3 MONTH SLOW RELEASE TECHNOLOGY

- ✓ **Stronger Lawn** Improves the lawn's ability to survive and recover during weather extremes.
- ✓ **Less Mowing** Nutrients are consistently delivered over 12 weeks, preventing surge growth.
- ✓ **No Burn, No Waste** Slow release eliminates the risk of burn damage and nutrient waste.
- ✓ **Better for our Waterways** Less nutrient run-off and leaching reduces freshwater contamination.
- ✓ **Cooling the Environment** Slow release builds a healthier lawn reducing temperatures compared to urban areas.

## SUSTAINABILITY COMMITMENT

We support responsible sourcing and are consistently improving our product profile.
