

CAUTION

Kills all green plant growth and prevents seed germination. Avoid contact by spray and spray drift with cultivated plants and desired vegetation. To avoid transfer to lawns and other desired vegetation, do not walk into treated areas until the product has dried. **Maximum number of treatments: one per year.** DO NOT apply to cultivated areas or lawns unless you want to kill them. If an area needs to be cultivated allow at least 6 months between treatment/replanting and dig the soil well to reduce risk of damage to subsequent planting. Where this or other products containing diflufenican are applied in successive years, diflufenican will build up in the soil. There is a risk of damage to subsequent plantings even if the soil is well dug.

SAFETY INSTRUCTIONS

Protection during / in use

Keep children and pets away from treated areas until spray has dried. Keep off skin. Wash off splashes immediately. Wash hands and exposed skin after use.

Environmental protection

Use appropriate containment to avoid environmental contamination. Do not contaminate water with the product or its container. Do not empty into drains. Direct application away from ponds and other surface water bodies. Do not apply during windy conditions so that spray does not drift onto other plants.

Storage and disposal

Keep away from food, drink and animal feeding stuffs. Keep product away from children and pets. KEEP IN ORIGINAL CONTAINER, tightly closed, in a safe place. EMPTY CONTAINER COMPLETELY and dispose of safely.

Risk and Safety Information

To avoid risks to human health and the environment, comply with the instructions for use.

Read label before use. Do not eat, drink or smoke when using this product. Keep out of reach of children. If medical advice is needed, have product container or label at hand.

For the UK only: Dispose of contents/container to a household waste recycling centre as hazardous waste except for empty containers which can be disposed of in the dustbin. Contact your local council for details.

For RoI only: Dispose of contents/container to a licensed waste disposal contractor or collection site, except for triple rinsed empty containers, which can be disposed of as non-hazardous waste.

Warning
Very toxic to aquatic life
with long lasting effects.

MAPP: 16524 PCS No: 05176

PROTECT FROM FROST

Contains 125 g/L glyphosate and 20 g/L diflufenican formulated as a suspension concentrate (SC).

3 x 18 ml e tubes

Treats up to 60 m²
Each tube treats up to 20 m²

Weedol®

PATHCLEAR™

WEEDKILLER

MAPP: 16524
PCS No: 05176

WHY CHOOSE WEEDOL® PATHCLEAR™ WEEDKILLER?

- ✓ **KILLS** existing weeds to the roots through systemic action.
- ✓ **PREVENTS** new weeds for up to 3 months by creating an invisible barrier.

INSTRUCTIONS FOR USE

FOR USE ONLY AS A HOME GARDEN WEEDKILLER

For use on natural surfaces not intended to bear vegetation, unwanted vegetation and permeable surfaces overlying soil.

READ ALL SAFETY INSTRUCTIONS BEFORE USE

Maximum individual dose: 18 ml of product per 20 square metres.

WHEN TO USE

Use March – September, when the weeds are small and are actively growing. Apply on a dry, calm day and do not apply in windy conditions. Do not apply if rain is expected within 6 hours of application. Avoid treating in waterlogged conditions. Apply to an area only once each year.

WHERE TO USE

Weedol® Pathclear™ Weedkiller

can be used to control weeds on gravel paths and drives, along fences and walls. It can be used around established trees and shrubs. Apply carefully making sure the product does not contact the foliage or trunk of these plants.

Gravel paths

Gravel drives

DO NOT use on impermeable surfaces or surfaces underlaid with impermeable material, such as concrete, tarmac, decking and paved areas, where the weedkiller solution might run off onto adjacent land, or into drains or gutters. Direct spray away from water.

HOW TO USE

SHAKE WELL BEFORE USE.

- 1 Use either: watering can with a Weedkiller Sprinkle Bar or a fine rose, or a garden sprayer.
- 2 Simply snap off (or cut open) the top of the tube and mix with 1 litre of water in a sprayer, or 5 litres of water in a watering can and mix thoroughly.
- 3 Apply evenly on the area to be treated. Ensure weeds and soil are evenly wetted (on areas of dense or large weed cover, ensure the product makes contact with the soil, to prevent new weeds from germinating).
- 4 Wash equipment thoroughly with water after use and dispose of washings or any unwanted dilute product on soil in a waste area away from drains and gutters which is not going to be used to grow desirable plants within two years.

Visible effects in 14 days. Weed death may take up to 28 days.

AMOUNT TO USE

Weedol® Pathclear™ Weedkiller one tube:

Sprayer: 1 litre water
Watering can: 5 litres water
Area treated: 20 m²

TIPS

The best weed control is achieved using hand-held pressurised spray application. If applying the product through a watering can with a dribble bar, optimum weed control may not always be achieved. To achieve optimum long-term weed control do not disturb the treated area.
