How and when to use

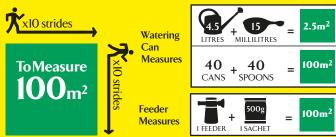

- Watering Can: Mix one large (15ml) level spoonful of Miracle-Gro Lawn Food into an average sized 4.5 litre (1 gallon) watering can and spread evenly over 2.5m².
- 2 Miracle-Gro Feeder: Empty one 500g sachet into the feeder, attach feeder to hose pipe, and spread evenly over 100m².
- **3** Apply the lawn food as evenly as possible whilst walking up and down your lawn. Reseal pack, store in a dry place and wash hands after use.
- **4** To make sure your lawn is richer and greener throughout the season apply once a month, from early Spring to the Autumn.

Lawns in Poor Condition: Apply every two weeks.

How much should I use?

See how easy it is to feed an average sized lawn of 100m^2 with the Miracle-Gro Feeder!

Lawn Type	Feed Frequency	Duration
Newly Turfed Lawns	Once a month	April - September
Newly Seeded Spring Lawns (April - June)	Once a month	April - September
Newly Seeded Autumn Lawns (September - October)	Once when grass has taken seed then once a month	September - October

Why use Miracle-Gro Lawn Food?

Miracle-Gro Lawn Food is specially formulated to give you a beautiful green lawn in just 5 days!

It's easy to use with either a watering can or our Miracle-Gro Feeder.

By feeding monthly and watering regularly your lawn will stay healthy and green all season.

Miracle-Gro Lawn Food is also formulated to make your lawn more resistant to drought.

Why use a Miracle-Gro Feeder?

- Just attach to your hose-pipe and off you go! There's no mixing or measuring.
- In just 15 minutes you can feed your lawn with all the right nutrients so it looks green and healthy.

O V

The Miracle-Gro Feeder is also ideal for feeding your plants, just put Miracle-Gro Water-Soluble Plant Food in your feeder and off you go.
