

## Environmental Information

At Scotts we are justly proud of our environmental record and our concern for the environment, both at our production facilities and in your garden. With this in mind we continue to develop outstanding, consistent growing media using a range of peat based, reduced peat and peat free ingredients, many of which make use of otherwise waste material.

Over the last decade we have significantly reduced the proportion of peat we use in our composts and will continue to do so. We do not harvest any peat from SSSI or SAC sites and are actively involved in helping the management and restoration of the peat land areas that we harvest from.

As we continue to work towards reduced peat formulations we are continually introducing new materials into our products. This may mean that you notice a difference in the appearance of your compost from year to year. Rest assured, any changes to our formulas are rigorously tested so we can guarantee the product you are using is as good as, if not better, than before.

We recommend you always wear gloves when gardening.

## Where and How to Use:

Levington® Ericaceous Compost is ideal for: potting, taking cuttings, outdoor planting, tubs, troughs, window boxes and acid beds.

### Beds & Borders

Water the plant thoroughly. Dig a hole twice the size of the root ball. Part fill the hole with a mixture of 50% soil and 50% Levington® Ericaceous Compost. Ensure the plant is at the same level as in the pot. Fill in firmly, then water.

### Size Guide this pack fills approximately:

S	20L	2x or 1x	or	2x		2 SMALL 25CM (10") POTS, 1 MEDIUM 32CM (13") POT, 2 HANGING BASKETS
L	50L	7x or 3x or 1x	or	7x		7 SMALL 25CM (10") POTS, 3 MEDIUM 32CM (13") POTS, 1 LARGE 42CM (17") POT, 7 HANGING BASKETS

# Levington® ericaceous compost

## THE PROFESSIONAL

### Stronger, Healthier Plant Growth.

Levington® is the premium brand of compost as used by many professional gardeners and growers. Through a wealth of knowledge gained over 40 years of research, we have developed a unique balance of ingredients for Levington®. This compost is enriched with all of the essential plant nutrients, to guarantee you stronger, healthier plants.

**Levington® Ericaceous Compost** contains a unique blend of nutrients which makes it ideal for ericaceous plants.

NITROGEN (N)	For greener leaves and healthy shoots
PHOSPHATE (P)	For strong root development
POTASSIUM (K)	For fruit and flowers
TRACE ELEMENTS	Essential for all round plant health and disease resistance
WATER RETAINING AGENT	Levington® has a patented wetting agent that enables the compost to soak up and retain higher levels of water without getting water logged.
LOW pH, HIGH IRON FORMULA – FOR GREENER HEALTHIER LEAVES	Levington® Ericaceous Compost has been especially made for growing acid loving or lime hating plants such as: CAMELLIA, AZALEA, RHODODENDRON, HEATHER and PIERIS

This product is for home garden use and retail sales only. For commercial production use Levington® Professional growing media.

## GROWERS' CHOICE

### Acid Beds

Acid loving or lime hating plants can be grown in alkaline soils by constructing an isolated acid bed:

- Remove the garden soil in the chosen area.
- Line the bed with a well pierced polythene sheet.
- Fill with Levington® Ericaceous Compost.
- Plant up your desired shrubs.

### Containers

Partly fill the container with Levington® Ericaceous Compost and place the plant in the centre. Fill the remaining space evenly, firm lightly and water thoroughly.

## Caring for Your Plants

**WATERING:** The compost around your plant should be kept moist at all times and not allowed to dry out. Plants should not be left to stand in water for long periods of time, as it will encourage root rot. Clean rainwater should be used for ericaceous plants as often as possible.

**FEEDING:** After 4 to 6 weeks, we recommend regular feeding with Miracle-Gro® Azalea, Camellia & Rhododendron Soluble Plant Food to produce extra iron and reduce leaf yellowing.

### Premium Guarantee

If you are not completely satisfied with the performance of this product we offer you your money back.
