

Miracle-Gro®

All Purpose Enriched Compost

Miracle-Gro All Purpose's special formula contains Smart Release granules. It provides complete nutrition for healthy growth and beautiful blooms all season long.

The Smart Release granules have a unique coating so the plant food is continuously released only when it is warm and moist. This is when plants are actively growing and need it most.

Perfect for use in beds and borders, hanging baskets, pots and containers.

Miracle-Gro compost contains a unique and revolutionary Fibresmart Technology.

The hollow wood fibres are 100% natural and peat free. They ensure the optimum balance of air and water for strong roots to grow healthy, beautiful plants.

Grows plants **twice** as big...
guaranteed!**

How to use

Beds and borders

Dig a hole twice the size of the root ball.

Position the plant and fill with 50% soil and 50% compost.

Firm around the base and water thoroughly.

Pots, containers and hanging baskets

Place a layer of compost in the base of the pot.

Tap out the plant from the old pot, loosen the root ball and place in the centre of the pot.

Fill the space around the root ball, ensuring the compost level covers all the roots.

Firm lightly, water thoroughly and let drain.

Large seeds†, seedlings and cuttings

Fill small pots with compost.

Push large seeds or base of cutting below the compost surface.

Firm lightly and water thoroughly.

Useful tips

- For continued fantastic results with the hungriest plants we recommend that you begin feeding with Miracle-Gro plant food as soon as the leaves begin to pale.
- For sowing small seeds, we recommend using a specialist seed and cutting compost.
- † For large seeds, water compost thoroughly before planting and follow individual seed pack instructions.
- Compost should be kept moist at all times and not allowed to dry out. Avoid plants sitting in water. Outdoor container plants require frequent watering.

Storage

- Keep the bag closed when in storage to prevent drying out.
- Storage from one year to another may affect performance.
- Keep away from pesticides.
- Occasionally a white mould appears on the compost. This is not harmful to your plants and should disappear naturally.

Our commitment to sustainability

Did you know that you're part of one of the world's largest recycling efforts?

Each year, Scotts Miracle-Gro reuses thousands of tonnes of material from gardens and forests in many of our compost mixes, to help you grow plants that enhance your environment and make the world more beautiful.

We recommend you always wear gloves when gardening.
