

Fish, Blood & Bone All Purpose Plant Food

Contains a combination of fast releasing nitrogen and naturally occurring materials which supply the 3 main nutrients:

- Organic Nitrogen slowly & steadily releases for up to 8 weeks, encourages strong growth and healthy, rich green foliage
- Phosphate slowly & steadily releases to promote vigorous root growth
- Potassium promotes flower production and improves ripening of fruit and vegetables

UK Fertiliser Declaration

Compound fertiliser NPK 5 - 3 - 5

Total Nitrogen (N)	5%
Phosphorus Pentoxide (P ₂ O ₅) total	3% (1.3%P)
Phosphorus Pentoxide (P ₂ O ₅) soluble in water	0% (0%P)
Potassium oxide (K ₂ O) total	5% (4.2 K)

RoI Fertiliser Declaration

Fertiliser containing Organic Material Compound
NPK 5 - 1.3 - 4.2

Total Nitrogen (N)	5%
Phosphorus (P) total	1.3%
Phosphorus (P) soluble in water	0%
Potassium (K) total	4.2%

General advice

- Only use where there is a recognised need to feed plants.
- Keep away from plant leaves and stems.
- Do not exceed the appropriate application rate. Increasing the dosage may result in damage to your plants.
- Store in the original container in a cool, dry, frost-free place away from children, pets and foodstuffs.
- Wash hands and exposed skin after use.
- Do not eat or smoke while applying the product.

This carton is made from
100% recycled paper fibre. 

How to use

During soil preparation/planting time
sprinkle evenly over the soil and mix in well. During dry weather, water well after sowing seeds and planting out.

Planting small plants and barerooted plants
sprinkle around plants after planting and slightly work into the soil.

During the growing season
sprinkle evenly over the soil around established plants. Gently work it into the soil surface with a hand fork or hoe without disturbing the plant roots and water in thoroughly.

Planting bigger plants/shrubs/trees
mix with soil from planting hole with planting compost and use as planting mixture.

When to use

Miracle-Gro® Fish, Blood and Bone All Purpose Plant Food can be applied prior to sowing or planting and as needed throughout the growing seasons.

For established plants & plants in containers
apply every 6-8 weeks during the growing season, from March to the end of August, when plants are actively growing. Water in well.

Soil preparation
apply any time you are preparing new beds and borders.
